**MUNICIPAL CIVIL SERVICE RULES.**

Detailed information at the Civil Service Commission, 299 B'way, Mhntn.

There are four classes of offices and positions. Exempt Class—Includes all places not subject to examination or registration.

Non-Competitive Class—Comprises positions not in exempt or labor classes, and those not included in the competitive class.

Competitive Class—Comprises all positions subject to competitive examination.

Labor Class—Comprises the labor service. Examining Board—Board of Examiners, consists of a Chief Examiner and others, appointed by the Municipal Commissioners. No examiner can be a public officer.

Applications—Applications for positions in competitive class must be filed in applicant's hand-writing, addressed to the secretary of the Municipal Civil Service Commission of New York City, but not until the examination has been ordered.

Examinations—All examinations are in writing, except such as refer to expertise or physical qualities, as otherwise provided. In all examinations each subject is marked on scale of 100. No question relating to political or religious opinions can be asked. No appointment to or removal from an office shall be in any manner influenced by such opinions or affiliations. Candidates for position of senior clerk must receive an average of 70 per cent. Candidates for all other positions must receive 70 per cent average. Applicants for technical or professional positions must receive an average of 75 per cent, upon the technical paper. Applicants for positions of firemen or policemen must receive 70 per cent., both on mental and physical examinations.

Legal Wharfage Rates.

From October 1, 1906, rates for lighters and barges in New York Harbor were fixed as follows:

Under 50 tons, regular lighterage rates, of 1 cent per ton.

50 tons to 100 tons, 50 cents.

100 tons to 200 tons, \$1.

Over 200 tons pay 25 cents additional for every 100 tons or fraction thereof over 200 tons.

Rate for unregistered lighters and barges, \$2, or as directed in individual cases.

These rates apply to boats delivering coal that do not go through the canals or rivers of New York State. The minimum for such boats is 50 cents.

## THE AMERICAN FLAG.

The American Congress, in session at Philadelphia, established by resolution June 14, 1777, a national flag for the United States of America, to be thirteen stripes, alternate red and white, with thirteen stars, white on a blue field, representing a new constellation. The design of the flag is claimed for Betsy Ross, wife of John Ross, an upholsterer, of Philadelphia, whose rough drawing was accepted by Gen. Washington in June, 1776, and subsequently redrawn by him.

The resolution establishing the flag was officially promulgated by the secretary of Congress Sept. 3, 1777, and the flag was carried at the Battle of Brandywine, Sept. 11, 1777. The ship Ranger, commanded by Capt. Paul Jones, flying the flag, arrived at a French port Dec. 1, 1777, and Feb. 14, 1777, the American flag received the first salute paid by a foreign vessel. April 4, 1818, Congress, by resolution, increased the stars to twenty, and provided that on the admission of every new state into the Union one star be added to the Union on the flag to take effect on the 4th day of July next succeeding the admission. Since July 4, 1891, the flags of the Army and Navy have been uniform, the stars being arranged in horizontal and parallel oblique lines. The flag is made of bunting, of American manufacture. It is of three sizes: The storm and recruiting flag, 8 ft. x 4 ft. 2 in.; the post flag, 20 ft x 10 ft.; the garrison flag, 36 ft. x 20 ft. The Union, which is the stars, is one-third the length of the flag, and extends to the lower edge of the first red stripe from the top.

The American Flag House and Betsy Ross Association, Philadelphia, purchased the Betsy Ross house, still standing at 239 Arch street, Philadelphia, at a cost of \$25,000, from 1,046,000 contributors. In 1906 the Association presented the house to the American government as an historical shrine, and the gift was accepted by Congress.

## The Slocum Fund.

A committee of St. Mark's Evangelical Lutheran Church appointed to receive donations for the sufferers of the Slocum disaster, which occurred June 15, 1904, received in all \$20,213; undistributed, \$9,769. On February 12, 1906, the committee placed this balance in the hands of the Supreme Court, asking for permission to account, and that the court pay over the money in such manner as it may deem proper.

**Lincoln Farm Association.**

The Lincoln Farm Association was organized to restore to its original entirety the birthplace of Abraham Lincoln, Rock Spring Farm, in Hardin County, Ky., and to make of it an attractive national park. The old spring upon the place, noted throughout Kentucky, will be preserved, the fields which Lincoln

himself helped to plant will be seeded with blue grass, and there will be established an historical museum, which President Roosevelt has suggested be called "a temple of patriotic righteousness." The cabin in which Lincoln was born is now stored in a cellar in Stamford, Conn. It is to be bought and stored. Contributions of from 25 cents to \$25 are asked to carry out the purposes of the asso-

ciation. Every contributor will become a member of the association, which is headed by Joseph W. Folk, of Missouri. Among the trustees are Joseph H. Choate, Horace Porter, Henry Wattersen, Ida M. Tarbell, Albert Shaw, Robert J. Collier, William H. Taft, Cardinal Gibbons, Edward M. Shepard, W. T. Jerome, Clarence H. Mackay, Samuel L. Clemens and Augustus St. Gaudens.

## CUBA.

The relations between the U. S. and Cuba are defined in what is known as the Platt Amendment to the Army Appropriation bill of 1901, the Cuban Constitutional Convention having accepted the conditions there imposed, which are 8 in number:

1. That the govt. of Cuba shall never enter into any treaty or other compact with any foreign power or powers which will impair or tend to impair the independence of Cuba, nor in any manner authorize or permit any foreign power or powers to obtain by colonization or for military or naval purposes or otherwise, lodgment in or control over any portion of said island.
2. That said govt. shall not assume or contract any public debt, to pay the interest upon which, and to make reasonable sinking fund provision for the ultimate discharge of which the ordinary revenues of the island, after defraying the current expenses of govt., shall be inadequate.
3. That the govt. of Cuba consents that the U. S. may exercise the right to intervene for the preservation of Cuban independence, the maintenance of a govt. adequate for the protection of life, property and individual liberty, and for discharging the obligations with respect to Cuba imposed by the treaty of Paris on the U. S., now to be assumed and undertaken by the govt. of Cuba.
4. That all acts of the U. S. in Cuba during its military occupancy thereof are ratified and validated, and all lawful rights acquired thereunder shall be maintained and protected.
5. That the govt. of Cuba will execute, and, as far as necessary, extend, the plans already devised or other plans to be mutually agreed upon, for the sanitation of the cities of the island, to the end that a recurrence of epidemic and infectious diseases may be prevented, thereby assuring protection to the people and commerce of Cuba, as well as to the commerce of the Southern ports of the U. S. and the people residing therein.
6. That the Isle of Pines shall be omitted from the proposed constitutional boundaries of Cuba, the title thereto being left to future adjustment by treaty.
7. That to enable the U. S. to maintain the independence of Cuba, and to protect the people thereof, as well as for its own defense, the govt. of Cuba will sell or lease to the U. S. lands necessary for coaling or naval stations at certain specified points, to be agreed upon with the President of the U. S.
8. That by way of further assurance the govt. of Cuba will embody the foregoing provisions in a permanent treaty with the U. S.

A treaty bet. Cuba and the U. S. was concluded July 2, 1903, under which Cuba leased to the U. S. territory at Bahia Honda and Guantanamo, to be used as naval stations. The U. S. has established permanent barracks and a small force of men at Guantanamo.

## CUBAN REBELLION.

Disorders in Cuba, arising from alleged grave frauds in elections and various government

abuses, became serious in Aug., 1906. Armed rebellion resulted in numerous clashes between government troops and insurgents in Aug. and Sept. Pres. Palma rejected all peace propositions and on Sept. 3 declared for war. Conditions grew worse and anarchy was threatened. Pressure for American intervention became strong. On Sept. 9, the cruiser Denver was ordered to Havana, to protect American interests. The Des Moines was sent to Key West, the Marietta to Cienfuegos and the Dixie and Columbia to Guantanamo. Events rapidly developed, and Sept. 14, after a conference at Oyster Bay between the President, Sec. of War Taft, Sec. of the Navy Bonaparte, and Acting Sec. of State Bacon, the President addressed a letter to Senor Quesada, the Cuban minister at Washington, appealing to the Cubans to sink their differences and warning them of intervention if disorder continued. At the same time, it was decided to send Sec. Taft and Mr. Bacon to the island to investigate conditions and restore peace if possible. Additional war vessels were sent to Cuba and marines at various points along the Atlantic and Gulf coasts were ordered to hold themselves in readiness. Messrs. Taft and Bacon departed from Washington for Cuba on Sept. 16 and the same week began conferences with President Palma and other Cuban leaders at Havana. Efforts to compose the troubles and maintain the existing government having failed, Sec. Taft, under authority of the President, exercised by virtue of the Platt amendment, proclaimed himself governor of Cuba, marines were landed at Havana and elsewhere and President Roosevelt ordered 6,000 troops to Havana. Sec. Taft issued a proclamation declaring that American occupation would continue only until order was restored and new elections could be arranged for and held. As Mr. Taft could not be spared from Cabinet duties, President Roosevelt selected Judge Chas. E. Magoon as provisional governor on Oct. 3, and three days later he started for Cuba and at once took over the governorship. Disarmament of insurgents without bloodshed was soon accomplished and order speedily restored. Gov. Magoon at once busied himself remedying various abuses in the Cuban government affairs and preparing for elections as early in 1907 as practicable.

## OFFICIAL LIST OF CUBA.

Provisional Governor Charles E. Magoon, salary \$20,000; Chief of Customs, Manuel Diablane; Department of Charities, Dr. J. M. Delfin; Chief Sanitary Officer, Dr. Carlos Finlay; President Tomas Estrada Palma, the Vice-Pres. Sec. of State, Sec. of Government, Sec. of Finance, Sec. of Public Works, Treas. and Auditor, resigned when American intervention took place. These places have not been filled. Gov. Magoon issues his orders direct to civil service employes under him as provisional governor.

According to the last census, taken in 1899, the population of Cuba is 1,572,797, of which 1,067,354 is made up of whites.

## PORTO RICO.

Porto Rico is parallelogram in shape, 108 miles east to west and 37 to 43 miles across, with total area of 3,806 square miles. It is 1,060 miles from Key West, Fla. The rainy season lasts from Aug. to Dec.

Porto Rico and adjacent islands lying east of the 74th meridian are governed under an act which became a law April 12, 1900, giving the island a civil government. The capital is San Juan. Persons who were Spanish subjects April 11, 1899, and who have not elected to preserve their allegiance to Spain are held to be citizens of Porto Rico, and entitled to the protection of the United States. The designation of the body politic is under the name "The People of Porto Rico."

The Governor is appointed by the President and holds office for four years, having the powers conferred on governors of territories of the United States, but is to make his reports through the Secretary of State to the President. There is an executive council appointed

by the President and confirmed by the Senate, consisting of a secretary, attorney general, treasurer, auditor, commissioners of interior and education, and 5 other persons to hold office for 4 years.

The Council is the upper branch of the Legislature, five of whom are natives of Porto Rico. The other branch is the House of Delegates, consisting of thirty-five members elected biennially by the qualified electors.

No person is eligible to membership in the House of Delegates who is not 25 years of age, able to read and write either Spanish or the English language or who is not possessed in his own right of taxable property, real or personal, situated in Porto Rico. Provision is made for enacting legislation similar to that in territories. The island government contributes nothing to the national government, the entire revenue of the Dingley tariff and its own system of internal revenue taxation, on cigars, cigarettes, rum, spirits, etc., being converted

**HAWAII.**

The Hawaiian Islands, annexed to the United States by the signature of the President July 7, 1898, lie in the North Pacific, little more than 2,000 miles west of the U. S., 3,400 miles from Yokohama and 4,800 miles from Hong Kong. The inhabited and only important islands of the group are 8 in number, comprising an area of about 6,700 sq. miles; the largest island, Hawaii, includes nearly two-thirds. They stretch out in a chain 400 miles long, running from southeast to northwest.

The islands were discovered in 1778 by Captain Cook. They were united into one kingdom under King Kamehameha I. in 1791. The integrity of the kingdom was recognized by the United States, France and Great Britain under the reign of Kamehameha III. In Jan., 1893, a disagreement between Queen Liliuokalani and her cabinet caused an uprising, resulting in a provisional government being formed. On July 4, 1894, a republic was proclaimed, with Sanford B. Dole as president. Agitation among the ruling element for annexation to the U. S. followed. On Aug. 12, 1898, the formal transfer of the island to the sovereignty of the U. S. took place. June 14, 1900, it became a customs district.

**Government.**

The islands are governed under a law enacted April 30, 1900. It provides that the islands shall be known as the "Territory of Hawaii," and that the capital shall be at Honolulu, on the island of Oahu. The Legislature of the Territory of Hawaii consists of two houses, Senate and House of Representatives, styled "The Legislature of the Territory of Hawaii." The Senate is composed of 15 members, who hold office for 4 yrs. Senators must be citizens of the U. S., over 30 yrs. of age, and have resided in the Hawaiian Islands not less than 3 years. The House of Representatives is composed of 30 members, elected every second year. Representatives must be 25 yrs. of age, be citizens of the U. S., and must have resided in the Hawaiian Islands not less than 3 years. Hawaii is represented in the Congress of the U. S. by a delegate. The present delegate is Tonah Kaho Kalaniana'ole, elected by the Rep. party.

Total value of shipments of foreign merchandise from the U. S. to Hawaii: Years ending June 30, 1906, \$109,661; 1906, \$265,520.

**Population Statistics.**

The first census of the Hawaiian Islands was taken in 1832, followed by census of 1836, 1850, 1853 and 1860. These are said to have been of very rudimentary character. In 1865, however, the Legislative Assembly made it the duty of the Board of Education every sixth year, counting from 1860, to make a complete census of the kingdom. By this requirement a census was taken every six years from 1866 to 1896, and the census of 1900 was taken as part of the work of the U. S. twelfth census. The census of 1832 showed a population of 130,313, but each succeeding census up to 1872 showed a loss, that in 1872 showing only 56,897. Since that time the population has steadily increased.

Honolulu, in Oahu island, is practically the only city in Hawaii. Its population in 1886 was 13,521, and, according to U. S. census taken in June, 1900, its population was 39,306.

## THE PHILIPPINE ISLANDS.

The Philippine archipelago, exclusive of the Sulu group, is divided into three groups of islands called Luzon, Visayas (or Bisayas) and Mindanao. The aggregate area of the 1,900 odd islands is about the same as that of California, with, however, a population much more dense and estimated to be between 7,000,000 and 8,000,000. The principal island, on which Manila is situated, is Luzon, and exceeds Cuba in area. The great bulk of the inhabitants of the Philippines are Malays. Of the nearly 2,000 islands only about 400 are inhabited. Luzon is about 550 miles long with a varying width of from 10 to 130 miles. It contains 57,500 square miles and has a population of over 4,500,000. Two of the largest rivers are the Apurí, of 180 miles, and the Pasig, of 130 miles. The islands came into the possession of the United States by conquest in the Spanish war, this government paying to Spain the sum of \$20,000,000 as a partial purchase price.

The archipelago is governed by the Philippine Commission, the head of which is the governor general of the islands, while the other members serve as chief administrative officers of the several executive departments. The legislative power conferred upon this commission will soon be transferred to a Filipino legislature, which is to consist of two houses, the Philippine Commission and the Philippine Assembly.

## THE PANAMA CANAL.

Note—For details of the canal negotiations see Eagle Almanac of 1905, page 361.

By the terms of the treaty between the Republic of Panama and the United States, exchanged Feb. 26, 1904, the Republic of Panama granted to the United States the perpetual use, occupation and control of a strip of land, five miles wide on each side of the central line of the route of the canal. The same treaty conceded to the United States all the rights, powers and authority over this strip which this country would have if it were the sovereign of that territory.

Under this authority, and in accordance with an act of Congress approved April 28, 1904, the President, on behalf of the United States, took possession of the canal zone, and on May 9 organized a government for that territory.

By the terms of the treaty with Panama the United States guarantees and is to maintain the independence of the Republic of Panama. The canal is to be neutral. The purchase price for the property of the Panama Canal Company was \$40,000,000, and the sum of \$10,000,000 was paid to the Republic of Panama. In addition, Panama is to receive an annual payment of \$250,000 in gold during the life of the treaty, beginning nine years after the date of ratification.

On April 1, 1905, President Roosevelt reor-

ganized the Canal Commission by appointing an almost entirely new set of officials.

By action of Congress it was decided to have the canal built on the lock type.

On Nov. 8, 1906, President Roosevelt sailed on the U. S. S. Louisiana for Panama, for the purpose of making a personal inspection of the progress of the work.

Pavements Torn Up.

During 1905 30,388 permits were issued to open streets in the five boroughs of N. Y. City, involving the tearing up of pavements for trolley lines, water mains, sewers, gas mains, subway and surface, electric and steam service. If the torn up streets had been placed in continuous line they would have extended south from the Battery to the heart of Jacksonville, Fla. In Manhattan alone 125 miles of pavement were ripped up.

**SALVAGE CORPS.**

The Salvage Corps of Greater New York are owned and maintained by the insurance companies of the city for the purpose of protecting life and property at and after fires. There are two separate organizations, one in Manhattan, called the New York Board of Fire Underwriters, and one in Brooklyn, called the Fire Insurance Salvage Corps of Brooklyn. Each organization has established stations equipped with fire alarms, which are connected with those of the City Fire Department, patrol wagons and other apparatus necessary for the prevention of the destruction of property by fire and water. Each station is supplied with a force of men to answer all fire alarms. By charter the Salvage Corps have the same right of way in the streets, and same privileges in entering houses, as the Fire Department.

## HOW TO OBTAIN TRADE MARKS.

**Application, Registration and Fees.** A trade mark may be registered by any person, firm or corporation in the United States or located in any foreign country which, by treaty, convention or law, affords similar privileges to citizens of the United States, and who is entitled to the exclusive use of any trade mark and uses the same in commerce with foreign nations or with Indian tribes.

An application for the registration of a trade mark must be made to the commissioner of patents, and must be signed by the owner of the trade mark.

All applications for registration are considered in the first instance by the trade mark examiner. Whenever, on examination of an application, registration is refused for any reason, the applicant will be notified thereof.

On filing an application for registration of a trade mark, \$25 must be paid; for manuscript copies, for every 100 words or fraction thereof, 10 cents; for recording every assignment, agreement, power of attorney, or other paper of 300 words or less, \$1; for recording every assignment, agreement, power of attorney or other paper of more than 300 words, and less than 1,000 words, \$2; for recording every assignment, agreement, power of attorney or other paper of more than 1,000 words, \$3; for certificate of search, \$1; for each brief from the digest of assignments, 20 cents; for assistance to attorneys and others in the examination of records, an hour or less, 50 cents; each additional hour or fraction thereof, 50 cents; for single printed copy of statement, declaration and fac simile, 5 cents; if certified, for the grant, additional, 10 cents; for the certificate, 25 cents. If the applicant be a corporation it must be specified under the laws of what State or nation incorporated.

There must also be a declaration or oath to the effect that the applicant has at the time a right to the use of the trade mark and that no other person, firm or corporation has the right to use it, and that the description and fac simile presented for registry are a true representation of the trade mark sought to be registered.

There must be a drawing made with India ink

alone, on pure white paper, the thickness of three sheets of Bristol board, and containing a calendared and smooth surface. All drawings must be made with pen only and every line and letter, signature and shading must be absolutely black. The size of the sheet must be exactly 10½ inches, and there must be an inch margin on each side, leaving the "sight" exactly 8½ inches. When the view is longer than the width of the sheet, it may be turned on its side, while the signature of the proprietor of the trade mark must be placed at the lower right hand corner and the signature of the witnesses at the lower left hand corner, but, in no instance, shall they encroach upon the drawing. Drawings must be rolled for transmission to the Patent Office—not folded.

The governments with which conventions for the reciprocal registration and protection of trade marks have been entered into by the United States are: Austria-Hungary, Belgium, Brazil, Denmark, France, Germany, Great Britain, Italy, Japan, Netherlands, Russia, Servia, Spain and Switzerland.

## HOW TO SECURE A COPYRIGHT.

The person desiring a copyright must on or before day of publication in this or foreign country, deliver at the office of the Librarian of Congress, or mail in United States to his address a printed copy of the book, map, chart, musical composition or picture; or a description of the painting, statue, statuary, model or design, if the copyright is desired for work of the fine arts. He must deliver at the office of the Librarian of Congress or deposit in the mail addressed to the Librarian of Congress, two copies of such copyright book or picture, etc.

The address of the Librarian of Congress is Washington, D. C.

To be eligible for copyright a book or photograph must be printed from type set within the United States, or from plates made from them, or from negatives or drawings on stone, or from transfers made therefrom. The fees are:

For recording each title of a book or other article, the production of a citizen or resident of the United States, fifty cents. If a certificate of copyright (i. e., a certificate of the entry of the title) is desired, there is an additional charge of fifty cents, or \$1 in all. One certificate can be made to include only one title.

For recording each title of a book or other work, the production of a person not a citizen or resident of the United States, the charge is \$1. This fee of \$1 is required to be paid for recording the title of every work whose original author or producer is a person not a citizen or resident of the United States, whether the proprietor of the copyright is or is not a citizen or resident of the United States. A certificate of such record requires the payment of fifty cents additional, or \$1.50 in all.

For every copy under seal of the record of entry of title, the charge is fifty cents.

For recording and certifying an instrument of writing for the assignment of a copyright, the charge is \$1; and for each copy of an assignment, \$1.

Receipts for two copies—for a certified receipt showing the deposit of two copies, the charge is 50 cents.

In no case should any postage stamps, or stamped envelopes be sent for reply, as all copyright office mail is forwarded under a government frank.

All remittances should be made by money order, payable to the Register of Copyrights. Internal revenue stamps are not required.

The first copyright is good for twenty-eight years.

The benefits of copyright are available to American citizens in Belgium, Chile, Costa Rica, Denmark, France, Germany, Great Britain and her possessions (Australia, Canada, India, etc.), Italy, Mexico, Netherlands (Holland) and possessions, Portugal, Spain and Switzerland. Copyright in the United States does not insure protection in countries other than the United States. Librarian of Congress, Herbert Putnam; Register of Copyrights, Thorwald Solberg.

R., with a central station in Manhattan and a terminal east of Thompson av., L. I. City, in Queens, was made public Dec. 12, 1901. The Pa., N. Y. and L. I. R. R. Co., capitalized at \$20,000,000, was organized under the laws of the State of N. Y. on April 22, 1902, for the purpose of constructing that portion of such tunnel railroad situated in the state of N. Y., and the Pa., N. Y. and N. Y. R. R. Co., capitalized at \$500,000, was organized under the laws of the State of N. J. on Feb. 12, 1902, for the purpose of constructing that portion of the tunnel railroad extending from Newark, N. J., to a connection with the Pa., N. Y. and L. I. R. R. Co. under the Hudson River. A. J. Cassatt is Pres. and S. Rea Vice-Pres. of these companies.

The plan devised by Chas. M. Jacobs, Consulting Engineer of the L. I. R. R. and Chief Engineer of the Pa., N. Y. and L. I. R. R. Co., calls for at least six tubes—two 23 ft. ext. diam., 100 ft. below high tide under North River, and four under East River, each tube holding a single track. The tunnel system will converge at a central station located in a space between 7th and 10th avs. and between 31st and 33d, Mhntn. The station structure, designed after the Quai d'Orsay, Paris, but twice as large, will be 1,500 ft. in length by 500 ft. in width, 3-decked, inclosing 25 tracks at tunnel level, which will be approached by gradual carriage drive and walkway. The East R. section, beginning at 7th av., Mhntn., at the big terminal station and ending at Thompson av., L. I. City, is 2.35 miles long. Two separate lines of twin tunnels will proceed under 32d and 33d at a varying depth to 2d av. where they turn a little to the northward and gradually converge as they pass under the East R. and the L. I. side until they meet in a long, open cut structure. The tunnel tubes will be laid below 31st, in Manhattan and underneath L. I. City in Queens. In addition to the station in Manhattan a second central station is contemplated for Brooklyn in E. N. Y. Entire length of tunnel system will be 15 miles, and cost \$50,000,000, and will be completed within 3 years' time from securing permits from city.

The franchise was passed by Board of Aldermen Dec. 15, 1902, and signed by Mayor Seth Low, Dec. 22, 1902. The franchise is perpetual, with revaluation every 25 years, but the rate originally fixed never to be lowered upon revaluation. The rate fixed is for the first 10 years after operation begins, 50 cents per linear foot of single track under Mhntn., and for the remaining 15 years \$1 per linear foot. A nominal payment of \$100 per year is to be made for ground under each river, and the company is to pay \$783,600 for the fee to part of 32d, to be closed and used for a city station. The payments will net the city about \$2,500,000 for the first 25-year term. The specifications of the Pennsylvania Railroad's tunnel contract call for the laying of 11,640 ft., or over 2½ miles of single track, concrete-lined tunnels; 8,870 ft., with 2 or 3 tracks; 1,670 feet single track, concrete-lined, built in cut and cover; 2,730 ft. 4 to 7 track tunnels in open cut and cut and cover; 1,700 ft. 3 and 4 track tunnels, with steel truss bents and concrete lining, and 24,049 ft. of cast iron shell single track shield driven tunnel, of which 12,174 ft. will have screw piles. During 1904 5 shafts were sunk; 2 in L. I. City, 2 in Mhntn. and 1 in Jersey, and the work on the tunnel has so advanced that some experts estimate that it should be completed, at the present rate of progress, in 2 years. The engineering work is in charge of Chas. M. Jacobs and Alfred Noble. S. Pearson & Son, Inc., have the contract for the construction of the East R. section of the tunnel; O'Rourke Eng. Construction Co., the construction of the North R. tunnels; New York Contracting Co. that for terminal station at 33d, Mhntn.

The two tubes under the North R., bet. the shaft in Jersey City, nr. the river front, and

the shaft on 11th av., in Mhntn., have been joined under the middle of the river. The north shields met Sept. 12, 1906, and the south shields Oct. 9. The contractors are now lining the big steel tubes with concrete. These tubes are to be supported underneath by steel piles forced through the intervening stratum of soft material down to the solid rock, many feet beneath the river's bed. This work will be completed during the ensuing year. The two tubes are together 13,200 ft. in length. The excavation on the west side of Mhntn. has proceeded from the shaft on 11th av. within 250 ft. of the big depot site which occupies four blocks bet. 7th and 9th avs. and 31st and 33d, and half of the block bet. 6th and 7th avs. and 32d and 33d. It is expected that the entire excavation for the depressed yard under the station to a depth of 60 ft., and 40 per cent. of which is the hardest of rock formation, will be completed by early spring. The excavation of the subway from the shaft at Madison av. is well under way, and the same subway has progressed westerly from the shaft at the East R. front to a point bet. 2d and 3d avs. It is expected that the two gangs of diggers will meet by June 1, 1907, making the 4 track tunnel continuous from the East R. under 32d at to the big station at 7th av. Two of the big tubes under the East R. have progressed to about 1,000 ft. easterly from the shaft at the ft. of E. 33d and 200 ft. westerly from the L. I. City shaft at the river's edge. The tunnels under L. I. City from East av. westerly to the river shaft are all completed but the lining. It is expected that the entire work under the East R. will be completed in a year from next July, and that the railroad will be in operation through these by January 1, 1909.

## N. Y. &amp; J. AND H. &amp; M. TUNNELS.

The Hudson Companies was incorporated in 1905, with a capital stock of \$16,000,000 preferred, and \$5,000,000 common, for the purpose of financing and constructing the tunnel lines of the New York and Jersey R. R. Co. and the Hudson & Manhattan R. R. Co., the controlling interest in each of which it owns. W. G. Oakman is Pres. The New York & Jersey R. R. extends from Hoboken, in N. J., under the North R. to Morton, Mhntn., thence up Morton to Greenwich; along Greenwich to Christopher; along Christopher to 6th av. and under 6th av. to 33d; a branch will also be constructed easterly on 9th to 4th av. The two tunnels of this Co. have been completed under the Hudson R. (diameter, 15 ft. 3 in.) and the work is now progressing under the streets of Mhntn. and on the N. J. approach. Trains similar to those now used in the N. Y. Subway will be operated through these tunnels. W. G. McAdoo is Pres. of this Co.

The Hudson and Manhattan R. R., W. G. McAdoo, Pres., extends from the Pennsylvania R. R. station in Jersey City under the river to a terminal station to be erected on Church, between Cortlandt and Fulton, Mhntn. Two tunnels are to be built, with a single track in each. The motive power in both cases is to be electric.

The executive officers of all these corporations are located at 111 B'way, Mhntn.

## N. Y. AND L. I. R. R.

New York and Long Island R. R., commonly known as the Belmont tunnel, will connect the New York and Queens County Electric Railway Co. in L. I. City, controlled by the Belmont interests, with the Grand Central Station and also the ferry terminus of the West Shore road at the foot of W. 42d. The work is being done by the Degnon Construction Company. The first shaft sunk was on the south side of 42d, between Lex and 3d avs. Work was stopped in November, 1905, by order of the Mayor, who held that the company's franchise was defective. Office of the Co., 16 E. 42d, Mhntn. During 1906, legal matters having been adjusted, work progressed. The tunnel openings under the river are completed, the concrete walls are being put up, and it is expected that trains will be running by June 1, 1907, from Grand Central Sta., Mhntn., to sta. at 4th and Jackson av., L. I. City.

## NEW YORK AND BROOKLYN SUBWAYS.

(For detailed history, see Eagle Almanac, 1905, page 450.)

The Subway begins at So. Ferry, thence under B'way and City Hall Park to the City Hall Sta., continues up Elm to Lafayette pl.; thence to 4th av., to 42d. to B'way to 104th, where it branches into 2 sections, 1 continuing to Ft. George and beyond to Marble Hill, nr. Kingsbridge, the second going to the east to Lenox av., to 141st; thence under the Harlem River to Bronx Park.

The contract was let to John B. McDonald, being signed on Feb. 24, 1900, in the Comptroller's office. Ground was first broken on March 24, in front of the City Hall, by Mayor Van Wyck. The contract price was \$36,000,000, the contractor agreeing to build, equip and operate the road for 50 years. The contractor was required to furnish security to the amount of \$7,000,000 for the faithful performance of his contract. This he did through the organization of the Rapid Transit Subway Construction Co., Aug. Belmont, president, which guaranteed Mr. McDonald's completion of his contract. The contract was divided into sections by the contractor and sub-let to under contractors. In 1902, an act of the Legislature permitting it, Contractor McDonald assigned his right to operate the underground road to the Interborough Rap. Tran. Co., which was organized for that purpose with a capital stock of \$35,000,000.

The Interborough Co. in 1902 also took over the Manhattan Elevated R. R. Co. Its lease is for 999 years.

## INTERBOROUGH RAPID TRANSIT CO.

Office, 13-21 Park row, Mhnt.

The officers and directors of the Interborough Rapid Transit Co. are: A. Belmont, Pres.; E. P. Bryan, Vice-Pres.; F. Hedley, Gen. Mgr.; H. M. Fisher, Sec.; D. W. McWilliams, Treas.; G. H. Pegram, Chief Eng.; L. B. Stillwell, Elec. Dir. The Board of Directors are: A. Belmont, E. P. Bryan, A. Freedman, J. H. Hyde, J. Jourdan, G. M. Lane, W. G. Oakman, A. Skitt, J. Peirce, M. F. Plant, W. A. Read, C. Vanderbilt and G. W. Young.

## THE BROOKLYN TUNNEL.

The Rapid Transit Commission, Jan. 24, 1901, adopted the route to Bkln. as follows: From the New York City Hall down B'way to Bowling Green and State, to South Ferry, under East River to Joralemon, Bkln., to Fulton, to Flatbush av., to Atlantic av.

Bids for this franchise were opened July 21, 1902, and the award was made on July 24 to the Rapid Transit Subway Construction Co., it agreeing to build the line for \$2,000,000, with an extra allowance of \$1,000,000 for terminals and for real estate. The contract was signed Sept. 11, 1902, the bidding company giving as security for construction \$1,000,000 in cash, and for guaranty of operation during the thirty-five year term of the franchise, a continuing bond of \$1,000,000, also the bonds of sub-contractors assigned to the City of New York as additional security, aggregating \$650,000. The contractor agrees to carry passengers over the extension and the Manhattan-Bronx Subway between any and all points for a single 5 cent fare. Four years is allowed for the road's building and a premium is offered for completion in less than three years. The actual cost of construction is estimated at not less than \$5,000,000. The Brooklyn Rapid Transit Co. made a bid of \$7,000,000 including \$1,000,000 for terminals and for real estate, but failed to secure the award. The

sub-contracts were awarded as follows: The Cranford-McNamee Co. for Brooklyn section, the Degnon Construction Co. section from City Hall to Battery, Mhnt.; New York Tunnel Co., the section under the river. Ground on the Bkln. tunnel was broken in Jan., 1903. Two shafts were erected in Joralemon st. and one at the Battery in Mhnt. In addition shields are being driven under the East River from both the Bkln. and the Mhnt. shores to the center of the river. Work on the Fulton st. section of the tunnel was begun in 1904. Early in April, 1906, owing to change in plans to provide additional tracks and connections to other routes, construction in Fulton and Flatbush av. was almost completely suspended pending the obtaining of the necessary consent of the municipal authorities and property owners for this change, and work was resumed in Oct. of that year on the lines of the amended plans and has since been vigorously prosecuted.

In 1904 the Rapid Transit commission authorized the extension of the Bkln. subway from the proposed original terminus at Flatbush and Atlantic avs., past the Willink entrance to Prospect Park, under Ocean av. to Parkside av., there to connect with the Brighton Beach branch of the Bkln. R. T. Co. This extension has been approved by the city authorities. This extension is to serve the people of Flatbush and the adjoining territory. Later disagreements between the Park Commissioner and the Commission over the proposed removal of trees along Ocean avenue led to a suspension of plans. Concerning this, the officials concerned say that an agreement will eventually be reached.

The tunnel under the East River from the Battery to Joralemon st. is nearly done. The boring of the north tube is completed, and the cement lining is being put in. The south tube is expected to be completed by Apr. 1, 1907, and trains in operation from the Battery to Brooklyn Borough Hall by June 1, 1907. The Borough Hall station, 375 ft. long and 52 ft. wide, is expected to be completed by May 1, 1907. The two-track tunnel west of that under Joralemon st., is completed. The four-track structure under Fulton st. east of Borough Hall station is completed to Hanover pl. This line is to be completed to the Atlantic av. station of the L. I. R. R. by the fall of 1907. The Hoyt and Nevins st. stations are nearly completed. The road will have five tracks on Flatbush av. and two tracks to connect with the proposed Lafayette av. extension will pass under this station. The terminal loop station at Atlantic av., with two tracks provided for the proposed 4th av. extension will be 375 ft. long.

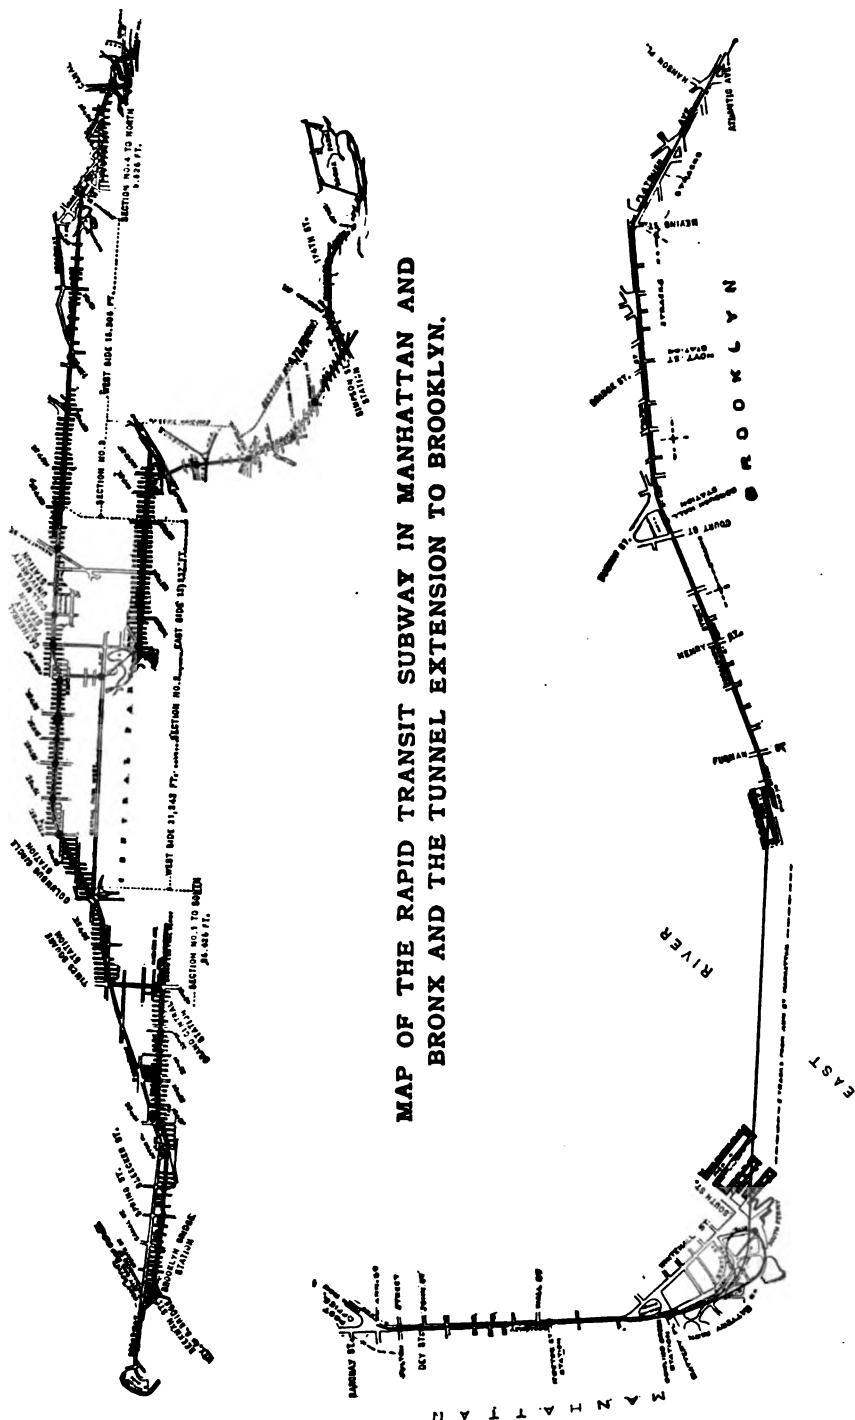

The Rapid Transit Commission in 1906 adopted a comprehensive plan of tunnels for Manhattan, Brooklyn and Queens.

The Manhattan routes include a west side subway from the Battery to a connection with the present subway at Times Square; an east side subway from the Battery through 1st and Alexander ave. to 138th st.; one under Lexington av.; one each under 7th av., 8th av. and 9th av., and under 14th st., 23d st. and 34th st. respectively.

The East River routes include one two-tube from Maiden lane, Mhnt., to Pineapple st., Bkln., thence to Fulton st.; one two-tube from Old Slip, Mhnt., to Montague st., Bkln., thence to Fulton st.; one four-tube from E. 14th st., Mhnt., to N. 7th st., Bkln., to connect with Bkln. subway loop connecting all the East River Bridges; one two-tube from E. 34th st., Mhnt., to Borden av., L. I. City, thence to connect with the Bkln. subway loop.

The Bkln. routes include the loop to connect the Bkln. Mhnt., Williamsburg and Blackwell's Island bridges, passing under Mhnt. av., Greenpoint av. to L. I. City; the Flatbush and 4th av. to Ft. Hamilton, with spur to New Utrecht av. to Coney Island; from the Bkln. Bridge via Willoughby, Lafayette and Bedford avs. to Williamsburg Bridge; under Broadway from the Williamsburg Bridge to Jamaica. Surveys, soundings and borings for all these routes are completed.

## BRIDGES BETWEEN BROOKLYN AND MANHATTAN.

The management of the Bridges is under control of a Commissioner of Bridges, appointed by the Mayor.

James W. Stevenson, Commissioner.

John H. Little, Dep. Commissioner.

Edgar E. Schiff, Secretary.

The construction of a suspension bridge over the East River, between the boroughs of Mhnt. and Bkln., and located at or near the foot of Broadway in Bkln., to, at or near the foot of Grand st., in Mhnt., was authorized under the provisions of Chap. 789, Laws of 1896, and approved by the Governor of New York, May 17, 1896. In accordance with those provisions six commissioners were appointed, three each by the Mayors of Bkln. and New York, the two Mayors acting as ex-officio members. Before the construction of the bridge could be started it was necessary for the cities to purchase charter rights owned by the East River Bridge Co. to build a bridge in this locality, and on Dec. 18, 1893, the Bridge Commissioners purchased all rights of said company for the sum of \$200,000.

On Jan. 18, 1898, a new commission of six members was appointed under the Greater New York Charter, which served until Jan. 1, 1902; the revised charter which went into effect that day provided that the Williamsburg Bridge, in common with all other city bridges, should be constructed and operated under the supervision of the Commissioner of Bridges. The first actual work on the bridge was begun on Oct. 28, 1896, when the Manhattan tower foundations were commenced.

The steel towers were completed about Jan. 1, 1901, and the end spans, between the main towers and anchorages, about May 1, 1901. The first wire rope for the construction of the temporary foot bridges, used in stringing the cables, was hoisted to place on April 11, 1901, and the first wire for the permanent cables crossed the river on Friday, Nov. 29, 1901. The stringing of the wires of the cables was completed June 27, 1902. The cables were completed in Aug., 1902, ready for the suspenders, and on Monday, Nov. 10, 1902, the suspenders were nearly all in place and everything was about ready for the commencement of the erection of the suspended span; but at 4:30 P.M. of that day a fire occurred on top of the

## BRIDGES BETWEEN BROOKLYN AND MANHATTAN—Continued.

Manhattan tower, which destroyed the timber platforms and frame work used in cable making on the south end of the tower and heated the cables supporting the footbridges to such an extent that they parted, allowing the footbridges to fall. New working platforms were required to complete the work on the cables and were constructed along the main cables, and the wrecked foot bridges removed, so that the work of erecting the suspended span was begun without much delay.

The erection of the main suspended span was begun on Jan. 15, 1903, and fully completed about Dec. 1, 1903. The south carriageway was completed and opened to traffic Dec. 19, 1903, and the north carriageway was opened on May 29, 1904. The south footwalk was opened on May 7 and the north footwalk on May 13, 1904. The formal opening of the bridge occurred Saturday, Dec. 19, 1903.

On Nov. 3, 1904, passenger trolley cars were for the first time operated on the bridge. The Brooklyn R. T. Co. and C. I. and B. R. Co. both operate cars across the structure on the southerly tracks. The N. Y. City R. R. Co. use the north tracks and commenced operation of cars with the 14th St. Crosstown line on Feb. 9, 1904, followed by the 8th St. line a week later and by the Grand St. line on Nov. 28, 1905. The construction of an underground station for the railway traffic on the bridge is in progress at the Manhattan end, Snare & Triest, contractors. Date of contract, July 12, 1906.

## TABLE OF DATA.

Length of main span, center to center of towers, 1,600 ft. Length of entire bridge, 7,200 ft. Width of bridge, main span over all, 118 ft. Height of bridge above high water at pier head lines, 121 ft. Height of bridge for 400 ft. over middle of river, 135 ft. Height of masonry towers above high water, 23 ft. Height of cables at towers above high water, 333 ft. Width of each two carriageways, 20 ft. Number of trolley tracks, 4. Number of elevated railway tracks, 2. Weight of steel in each tower, 3,048 tons. Weight of steel in end spans both sides of the river, 6,140 tons. Weight of steel in Bkln. approach, 6,085 tons. Weight of steel in Mhntn. approach, 10,550 tons. Weight of steel in main span, 7,772 tons. Weight of steel in cables and fittings 5,000 tons. Diameter of cables, outside of wires, 18 $\frac{1}{2}$  inches. Number of wires in each cable, 7,696. Size of each wire in cables (No. 6), about 3-16 inch. Length of each of the cable wires, about 3,500 ft. Quantities of material used in the bridge: Timber, about 8,000,000 ft. B. M.; excavation, about 125,000 cubic yards; concrete masonry, about 60,000 cubic yards; stone masonry, about 130,000 cubic yards; steel, about 45,000 tons.

The present engineer and executive officer is K. L. Martin, Engr. in Charge, office 84 B'way, Bkln.

## BRIDGES NOS. 3 AND 4.

Bridges Nos. 3 and 4 over the East River were begun under the Van Wyck administration. On Nov. 30, 1898, the Mayor submitted proposals to the Board of Public Improvements for a third bridge between Mhntn. and Bkln., and one between Mhntn. and Queens Borough. That body ordered the preparation of preliminary plans for both proposed structures.

## Manhattan Bridge (No. 3).

On Dec. 2, 1899, the Bridge Com. forwarded to the Sec. of War plans for a wire cable suspension bridge to extend from the Bowery and Canal, in Mhntn., to Myrtle av., between Gold and Prince, in Bkln. The ordinance authorizing construction was approved by the Mayor Jan. 8, 1900, and Jan. 29, 1900, the Sec. of War approved the plans. The estimated cost was fixed at \$15,333,600, of which \$9,552,000 was for the structure, \$4,000,000 for land in Mhntn., and \$2,281,600 for land in Bkln. The Bkln. tower foundation contract was let to J. C. Rogers, May 1, 1901, for \$471,757, and the foundation was completed in Dec., 1902. The Mhntn. tower foundation contract was let to J. C. Rogers, Dec.

22, 1902, for \$482,726.56, and the foundation was completed in March, 1904. Under Bridge Com. Lindenthal the plans as approved by the War Dept. and upon which construction was authorized were radically changed. These revised plans were approved by the Art Commission on March 10, 1903, and on July 9, 1903, the contract for masonry pedestals on top of the tower foundations was let to J. C. Rogers for \$150,000. These pedestals were completed in Aug., 1904.

The Aldermen withheld authorization of a bond issue for the bridge under Com. Lindenthal's revised plans, embracing steel eye-bar chains in place of wire cables, and early in 1904 a further revision of plans was made, involving a return to the wire cable design. June 23, 1904, the Mayor approved the bond issue to provide funds for the continuance of the construction of the bridge and on Sept. 15, 1904, the Art Commission approved the latest revision of plans. The bridge will cross the East River bet. the ft. of Lake Mhntn., and Washington, Bkln., the terminals being at the Bowery in Mhntn. and Nassau, in Bkln. Flatbush av. will be extended to the Bkln. terminal. The total length will be about 6,854 ft. and the extreme width 120 ft. The elevation above mean high water at center will be 135 ft. clear. There will be four trolley tracks and four elevated railway tracks, one 35 ft. roadway and two 11 ft. promenades. Bids for the two anchorages were opened Dec. 22, 1904. The Bkln. anchorage contract was let to Kosmos Engineering Co., Jan. 24, 1905, for \$1,212,554, and the Mhntn. anchorage contract was let to Williams Engineering and Contracting Co., Feb. 9, 1905, for \$1,197,000. The buildings have been removed from the anchorage sites and work is now progressing on the foundations of both anchorages. On Aug. 10, 1905, bids were opened for furnishing the metal work for the anchorages and constructing the towers, cables, suspenders and suspended superstructure. Five bids were received, that of the Pennsylvania Steel Co., for \$7,248,739 being the lowest.

The contract was awarded to the Pennsylvania Steel Co., but this award was set aside by the courts on a taxpayer's action. Bids were again advertised for and the contract was awarded to the Ryan-Parker Construction Co. on June 15, 1906, at a price of \$6,493,223, since which date the manufacture and fabrication of the steel required has progressed.

## Blackwell's Island Bridge (No. 4).

The general plan for a cantilever bridge from 2d av., bet. 59th and 60th, Mhntn., across Blackwell's Island to an intersection with Jane, L. 1. City, was submitted to the Sec. of War, Dec. 2, 1899. Its estimated cost was \$12,545,000, of which \$9,400,000 was for the structure and \$2,396,550 for land required in Mhntn. and \$750,000 for land in L. 1. City. Nov. 15, 1900, the ordinance authorizing construction was approved by the Mayor, and on Feb. 23, 1901, the plans were approved by the War Dept. March 29, 1901, the Aldermen authorized condemnation proceedings for the land required, and June 27, 1901, the contract for the construction of the 6 masonry piers was let to Ryan & Parker, for \$745,547.

Construction of the piers was commenced July 19, 1901, and completed June 10, 1904, at a total cost of \$858,565.01. The contract for the steel superstructure was let to the Pennsylvania Steel Co., Nov. 9, 1903, for \$5,132,935. The erection of this superstructure is in progress. The contract for power houses and elevator towers on the piers was let to the Williams Engineering and Contracting Co. on Dec. 31, 1903, for \$685,000. Work under this contract is in progress. The total length of the bridge will be 7,636 ft. The lengths of the spans are: Mhntn. anchor span, 469 5-10 ft.; west channel span, 1,182 ft.; Island span, 630 ft.; east channel span, 984 ft.; Queens anchor span, 459 ft. The clear height over river channels will be 135 ft. The plans were approved by the Art Commission, Feb. 10, 1903. The contract time for the completion of the bridge is Sept. 20, 1907.

## WATER SUPPLY OF NEW YORK CITY.

## BROOKLYN.

Brooklyn's water supply is obtained from streams that drain the portion of the Southern slope of Long Island lying west of Amityville, supplemented by wells driven at different points in same territory. The water is delivered into iron pipes or brick conduits, which conduct it to the main pumping station at Ridgewood. Here it is raised to the Ridgewood reservoirs, having a capacity of about 300,000,000 gallons, and from them is passed into distribution mains supplying the greater part of the borough. A portion of Brooklyn, near Prospect Park, gets its water from Mount Prospect reservoir and tower, near the park, the water being raised from Ridgewood by an additional pumping. The supply system includes 7½ miles of brick conduit from Massapequa pond to Millburn engine house, 4½ miles of cast iron pipe from Millburn engine house to Smith's pond, and 12½ miles each of cast iron pipe and brick conduit from Smith's pond to Ridgewood pumping station. From Ridgewood engine house 6 force mains lead to the reservoir. Along the conduit lines are 17 driven well stations, one pond pumping station, 2 infiltration gallery pumping stations, 2 mechanical filter plants, 2 sand filter beds and a station at Millburn that raises the water delivered there from the East to a higher level. The gravity supply is obtained from 12 ponds, having an aggregate storage capacity of about 1,000,000 gallons. On Jan. 1, 1906, the Ridgewood, New Lots, New Utrecht and Gravesend distribution systems consisted of about 775 miles of distributing mains, with 8,089 stopcocks and 9,272 fire hydrants. The Ridgewood pumping station has 10 engines with a pumping capacity of about 140,000,000 gallons daily.

There are four other plants within Brooklyn, deriving their supply from driven wells—the Flatbush Water Works, owned by a private company, and supplying the 29th Ward; the New Lots, Gravesend and New Utrecht plants, now owned by Brooklyn, supplying the 26th, 30th and 31st Wards. The New Lots plant is located on New Lots av., at the head of Fresh Creek; it has 2 engines, one of 3,000,000 gallons and one of 3,500,000 gallons daily capacity; about 45 miles of distributing mains and a reservoir of about 5,000,000 gallons capacity; the average daily consumption is about 4,000,000 gallons. The Flatbush Water Works are located at the head of Paerdegat Creek; there are one 5,000,000-gallon and two 3,000,000-gallon engines, a standpipe at Franklin and Washington av., and about 50 miles of distribution mains; the average daily consumption is about 5,000,000 gallons. The New Utrecht plant is located at E. 14th st. and Avenue U; there are one 1,500,000 and two 2,000,000-gallon engines; the consumption is about 2,000,000 gallons daily. The Gravesend plant is at E. 17th st. and Av. R; it has 2 engines, the average daily consumption being about 2,000,000 gallons. The average daily consumption from the Ridgewood, Gravesend, New Utrecht and New Lots systems in 1906 was about 123,000,000 gallons.

## MANHATTAN AND THE BRONX.

The water supply of Manhattan is received from the Croton watershed, thirty miles north of the borough. The capacity of the aqueducts and reservoirs is 380,000,000 gallons per day. In Bronx the territory east of Harlem River and from the Croton watershed in the lower portion of dams is supplied from the Bronx and Byram River watersheds, through a 48 inch pipe conduit 15 miles in length from the storage reservoir at Kensico to the receiving and distributing reservoir at Williamsbridge. The maximum capacity of this conduit is about 22,000,000 gallons per day. The Williamsbridge reservoir has a capacity of 147,000,000 gallons. The territory east of the Bronx River was formerly supplied by the New York and Westchester Water Company, but this plant was purchased by the city in December, 1902. The work of constructing the reservoirs and mains was begun in 1835 by an act of the Legislature. The system was com-

pleted in 1842 and the water was turned on on the 4th of July of that year. The conduit from the Croton Dam to Central Park Reservoir is about 40 miles. The new Croton Aqueduct was opened July 15, 1890, and has a capacity of about 300,000,000 gallons. Highbridge has a reservoir with 11,000,000 gallons. The reservoir in Central Park will hold 1,000,000 gallons. The system of water mains in Manhattan and Bronx now include 1,002 miles of water mains, with 13,390 fire hydrants. The combined storage capacity of the reservoirs in Croton, Bronx and Byram River sheds is 44,500,000,000 gallons.

The main wall of the new Croton dam is 200 ft. thick at the bottom, 1,000 ft. long, with a spillway of 1,000 ft., making an extended masonry of 2,000 ft. It extends 134 ft. below bed of river, 166 ft. high above bed of river and its top is 216 ft. above tide water and 100 ft. above the reservoir in Central Park. The dam was commenced in 1892. The estimated cost was \$4,150,573. The actual cost will be about \$5,500,000. It will have a storage capacity of 30 billions of gallons, and the lake, when the water rises to the spillway, will be between 19 and 20 miles long. This lake was partially filled in 1904 and 1905.

## QUEENS.

The city owns 5 water plants in service; 2 in 1st Ward (L. I. City), 3 in 3d Ward (Flushing, College Point, Whitestone). First Ward, Stations Nos. 1 and 2, in operation; No. 2 destroyed by explosion. Third Ward (Bayside, Flushing and Whitestone). Two in Whitestone, one in use, other abandoned.

Daily pumping capacity—First Ward, Station No. 1, 2,000,000 gallon pumping engine and one 1,000,000 gallon pumping engine. Available water supply, 1,000,000 gallons in 24 hours. Station No. 2, destroyed several years ago by an explosion, has been lately reconstructed. It has a new Worthington compound duplex condensing engine, with double acting plunger, capacity of 1,280,000 gals. daily, in full operation. Available supply, 1,250,000 gals. Station No. 3, one 2,000,000 gallon pumping engine and one 1,500,000 gallon pumping engine. Available water supply, 1,000,000 gallons in 24 hours.

Third Ward—Bayside Pumping Station. One 2,000,000 gallon pumping engine and one 1,000,000 gallon pumping engine. Source of supply—25 driven wells, of about 1,000,000 gallons capacity. Pump into stand-pipe. Flushing Pumping Station—One 2,000,000 gallon pumping engine and one 3,000,000 gallon pumping engine. Source of supply, pond of about 1,500,000 gallons capacity in 24 hours, and deep wells, capacity about 2,000,000 gallons in 24 hours. Whitestone Pumping Station—One 1,000,000 gallon pumping engine. Source of supply driven wells, yield about 500,000 gallons in 24 hours.

The public water system of the whole borough includes 91 miles of mains, 1,402 fire hydrants, 1,464 stopcocks, 10,000 houses are supplied. In addition to above are contracts for large water mains in 1st and 3d Wards, amounting to \$200,000, work on which will begin early in 1907.

Private water companies supply part of the borough. Five million gallons are furnished to the 1st Ward by Citizens' Water Supply Co. The city pays \$18 to \$25 per year each for following hydrants: Queens County Water Co., 339 hydrants; Woodhaven Water Co. 728 hydrants; Citizens' Water Supply Co. 760 hydrants; Jamaica Water Sup. Co., 989 hydrants.

The water supply of Jamaica is from driven wells nearby. The daily pumping capacity is 3,000,000 gallons; daily consumption is 2,500,000 gallons, and annual consumption is 900,000,000. There are 55 miles of mains.

The water supply of the town of Newtown is derived from 205 driven wells. The Citizens Water Supply Co. has 7 pumping stations, with a total pumping capacity of 27,000,000 gallons per day. The stations are situated: No. 1, at Clermont av., Elmhurst, with a capacity of 3,750,000 gallons from 23 driven wells; No. 2, at Trains Meadow, Woodside, 5,000,000 gallons, from 90 driven wells; No. 3, at Willow Glen,

## WATER SUPPLY OF NEW YORK CITY—Continued.

near Jamaica, 6,000,000 gallons, from 43 driven wells; No. 4, on the Backus Farm, at Whitepot, 1,500,000 gallons, from 16 driven wells; No. 5, on the Backus Farm, Hoffman boulevard, 1,750,000 gallons, from 14 driven wells; No. 6, Maurice av., Maspeth, 1,600,000 gallons, from 16 driven wells; No. 7, at Great Neck, 4,000,000 gallons; No. 8, at Douglaston, 8,000,000 gallons. The system has about 125 miles of mains, with 760 hydrants and 7,000 private consumers, besides supplying the 1st Ward, Borough of Queens, with 5,000,000 gallons daily. The average daily output is 12,000,000 gallons, but the pumping capacity is 26,000,000 gallons.

## RICHMOND.

Of the 4 water plants one is owned by the city, located at Totenville. It has a capacity of 864,000 gallons per day; capacity of stand pipe, 140,000 gallons, and the daily consumption is about 110,000 gallons. The water is drawn from 8 driven wells. The system has 8½ miles of mains and 76 fire hydrants. The

other 3 plants are private enterprises and comprise the following: Crystal Water Co. at Stapleton, supplying village of Edgewater and towns of Southfield, Northfield and Middletown, outside of incorporated villages; the South Shore Water Co. at New Dorp, and Staten Island Water Supply Co. at West New Brighton, supplying villages of New Brighton and Fort Richmond and town of Northfield.

The Crystal Water Co. has a capacity of 5,000,000 and daily consumption of 2,500,000 gals.

The South Shore Water Supply Co. has a pumping capacity of 750,000 and consumption of 80,000 gallons per day.

The Staten Island Water Supply Co. has a pumping capacity of 8,000,000 gallons and consumption of 4,000,000 gallons per day.

There are 132 miles of mains, 1,002 fire hydrants and 62 draw hydrants. The city pays \$25 per year for 629 fire hydrants, \$20 per year for 18 fire hydrants, \$30 per year for 351 fire hydrants, \$30 per year for 62 draw hydrants and \$40 per year for 18 fire hydrants.

## U. S. VOLUNTEER LIFE-SAVING CORPS.

Incorporated and organized in all the States. The U. S. Volunteer Life-Saving Corps, Pulitzer Bldg., Mhntn. 1,900 stations. 22,000 men and about 5,000 boats. It has saved 6,553 lives in 12 years; awarded 1,550 medals for rescues from drowning. 63 Park row, Mhntn.; Jas. R. Howe, Pres.; Ernst H. Luebbers, Jr., Sec.; Edw. C. Brennan, Gen. Supt.; Geo. A. Thorman, Gen. Organizer.

The corps furnishes crews with life-saving apparatus, medicine chests and life-boats, where necessary, free and furnishes life-saving instructors to visit the crews.

From the opening of the bathing season the members are, some of them, at all times ready for duty and many lives are saved at all seasons around the piers and from capized boats. Wooden balls are furnished which carry life-lines to persons who have broken through the ice on the lakes and rivers. It teaches swimming free of charge in each of the public baths of the city and has 4,500 members in the City of New York at 577 life saving stations fully equipped with life saving apparatus.

The Board of Governors are Hon. Jas. R. Howe, Bkln.; Hon. Carl Burr, Suffolk Co.; Hon. W. W. Cocks, Westbury, L. I.; Wm. Penn Jackson, Boston, Mass.; Ernest H. Luebbers, Jr., N. Y. City.

What property is liable to taxation—All real property within this State and all personal property situated or owned within the State is taxable unless exempt by law.

Assessments are made by the Deputy Tax Commissioners. They commence to assess real and personal property on first Tuesday of September and complete their work before the second Monday of the following January.

The State Tax Law directs that all property, real and personal, shall be assessed at its full value. The Charter of The City of New York requires the Deputy Tax Commissioners to assess and furnish the Board of Taxes and Assessments a detailed statement of all property, showing that said deputies have personally examined the same; also in their judgment the sum for which said property, under ordinary circumstances, would sell.

When assessment books are open for inspection and correction—The annual records of the assessed valuation of real and personal property in each borough are open for public inspection, examination and correction from the second Monday of January until the first day of April in each year.

Application for correction—Between the second Monday of January and first day of April application may be made to have assessments corrected. Applications for correction of assessed valuation of real estate must be made in writing, stating ground of objection thereto. The Board of Taxes and Assessments examines into the complaints, and if, in its judgment, the assessment is erroneous, it causes same to be corrected. Applicants for the correction of the assessed valuation of their personal estate are required to be examined under oath by a Commissioner of Taxes and Assessments, and if the Board determines the assessment to be erroneous it causes same to be corrected.

When assessed valuations may be increased or diminished—The Board of Taxes and Assessments may increase or diminish at any time before the first day of April the assessed valuation of any real or personal property as in its judgment may be just and necessary for the equalization of taxation; but it shall not

increase such valuations after the books of annual record are open for correction and review except upon notice given to the individual or corporation affected by such increase, at least ten days before the 15th day of April, in each year.

The power to remit or reduce a tax—The Board of Tax Commissioners may remit or reduce, if found excessive, a tax imposed upon real or personal property.

Certiorari to review final determination—A certiorari to review or correct on the merits any final determination of the Board of Taxes and Assessments in regard to the assessment of real or personal property may be begun at any time before the first day of November in the year in which the determination sought to be reviewed or corrected is made.

The certified assessment rolls must be completed and delivered to the Board of Aldermen on the first Monday of July.

The corrected assessment rolls must be delivered by the Board of Aldermen to the Receiver of Taxes on or before Sept. 15.

All taxes become liens on real estate affected on the first Monday of October.

Taxes payable on the first Monday in October.

Directions as to payment of taxes—Persons applying for tax bills must state whether tax is on personal or real estate and before paying any tax bill it should be examined to see if it embraces all property on which it is intended to pay taxes, and that no mistake is made in the section or ward, block and lot numbers of real estate. Persons applying for tax bills should be careful to compare their deeds with the maps in the office of the Commissioners of Taxes and Assessments to see that they have the correct section or ward, block and lot numbers before making payment. Persons paying their taxes before November 1 are allowed a discount of 6 per cent. per annum, computed from time of payment to Dec. 1. During the month of November there is no rebate or no penalty. One per cent. is added to taxes unpaid on Dec. 1; after Jan. 1 unpaid taxes are charged interest at 7 per cent. from Sept. 15. If personal taxes are not paid by Jan.

## INFORMATION FOR TAXPAYERS—Continued.

15 the receiver of taxes may issue his warrant to the marshal for collection by distress and sale.

Real estate taxes not paid June 1 are returned to the Bureau for the Collection of Arrears.

**Personal Property Exemptions.**

The term "personal property" includes all property other than "real estate"; for example: household furniture, chattels, money, things in action, debts due from solvent debtors, whether on account, contract, note, bond or mortgage, debts and obligations for the payment of money due or owing to persons residing within the State, however secured, or wherever such securities shall be held, debts due by inhabitants of this State to persons residing within the United States for the purchase of real estate, public stocks, stocks in moneyed corporations, and such portion of the capital of incorporated companies liable to taxation on their capitals as shall not be invested in real estate.

Among the various classes of "personal property" exempt from taxation may be enumerated the following:

Property exempted by constitution of State, of United States, or by act of the Legislature.

All property contained in the buildings of any incorporated academy, seminary of learning, or of a religious or charitable character.

All property exempt by law from execution other than an exempt homestead. (Articles enumerated in Sec. 1839 and 1890 of the Civil Code.)

Professional instruments, furniture and library, not exceeding in value \$250.

The pay and bounty of a non-commissioned officer, musician or private in military or naval service of the United States; a land warrant, pension or other reward granted by the United States or by a State for military or naval services; a sword, horse, medal, emblem, device, etc.

But if the pension funds have been embarked in business and mingled with other funds so as to be incapable of identification, they are not exempt either as personal property or in real property, if the claim is made that the same has been purchased therewith, only proportionately as such pension fund can be identified.

The pensioner must also show that he or she is not only the owner, but the occupant of the premises claimed as exempt from taxation.

Bonds of a municipal corporation issued for purpose of paying up or retiring indebtedness.

All vessels registered at any port in this State and owned by an American citizen or association, or by any corporation of this State, engaged in ocean commerce.

A bond, mortgage or note, contract, account or other demand belonging to any person not a resident of this State sent to or deposited in this State for collection; the products of another State owned by a non-resident and sent to his agent in this State for sale on commission; moneys of a non-resident of this State under the control or in the possession of his agent in this State.

Savings bank deposits.

The accumulation in any domestic life insurance corporation held for the exclusive benefit of the insured other than the real estate and stocks now liable for taxation.

The accumulations of any incorporated co-operative loan association upon the shares of such association held by any person.

Moneys collected by any association or casualty insurance on the co-operative plan.

The owner or holder of stock when the company is liable to taxation on its capital.

Stocks of city, state, charitable or literary institutions.

United States securities.

Trust funds in custody of non-resident trustees.

Co-operative savings and loan associations.

Foreign funds sent here for investment.

Goods sent here to be sold from another State where the proceeds are for non-residents. But this does not include moneys, goods and chat-

tels where a continuous business is being conducted. The point in this State of exceptions is whether such capital is used here as a continuous business, in which case, exemption does not apply.

Imported articles in original packages.

But after such articles are sold by the importer or divided into smaller packages or quantities, by breaking up of cases, cases, packages, etc., in which they are imported, and thus destroying the character or import, which made them dutiable under U. S. laws, they are taxable as personal property to the owner or agent. Or, after sold, also taxable.

**FULL VALUE REAL ESTATE ASSESSMENTS.**

Real estate was assessed upon its estimated market value for the first time in 1903 (resulting in increasing the borrowing capacity of the city from about \$7,000,000 to over \$142,000,000.

**TAXABLE REAL ESTATE.**

The total assessed value of real estate for 1906 in entire city was \$5,738,487,245; for 1905 it was \$5,221,584,301. Increase for 1906 is \$516,902,944.

(Prepared by Frederick A. Cook, M.D., 670 Bushwick av., Bklyn., N. Y.)

The field of exploration and discovery is enlarging with the advance of civilization. Though much has been done in recent years to explore unknown areas, the more urgent needs of science and commerce make a rediscovery of both land and sea necessary. A good deal of important pioneer work is constantly being done by men, of whom little is ever heard. Thus Alaska is being explored by the prospector; Siberia by the fur trader; South America by the rubber hunter and Africa by the missionary. Men of science quietly seek little known lands to study the life and history of a new bug or to verify a theory. Data of this kind is slowly accumulating and future generations derive the benefits. The annals for 1906 have been much enriched by the returns of the Norwegian Magnetic Pole Expedition of Roald Amundsen, the French Antarctic Expedition of Dr. Jean Charcot and the Ziegler Arctic Expedition under Anthony Fiala. Below is a concise record of exploring expeditions from 1901 to date, giving name of expedition, commander, financed by, destination, time in field, and most notable results:

Swedish (Antarctic), Dr. O. Nordenskjöld, steamship Antarctic, government and private subscriptions, King Oscar Land, 1901-4. Fossils which indicate a previous warm climate.

English Antarctic, Capt. R. F. Scott, R. N., steamship Discovery, Royal Geographical Society, government and private subscriptions, Victoria Land, 1901-4. Reached farthest south 82 deg. 17 min.; exploration of the inland ice.

German Antarctic, Prof. E. von Drygalski, government, Wilkes Land, 1902-3. Discovery of Gaussberg; important scientific data.

Scottish Antarctic, W. S. Bruce, steamship Scotia, private subscription, Weddell Sea, 1903-4. Four thousand m. unexplored sea surveyed; discovered new lands s. of Weddell Sea.

French Antarctic, Dr. Jean Charcot, steamship Francois, private subscription, Graham Land, 1904. Now in field; no report.

Ziegler North Pole, Anthony Fiala, steamship America, Wm. Ziegler, North Pole, 1903.

Fiala made several corrections in the map of Franz Josef Land, and tabulated important observations bearing upon magnetism, meteorology and terrestrial physics, but owing to the loss of his ship and the severe ice conditions, no important progress was made toward the North Pole.

Norwegian Magnetic Pole, Roald Amundsen, sloop Gjoa, Roald Amundsen, North Magnetic

Pole, 1903. Definite reports from Alaska indicate that Amundsen has been wonderfully successful. The Magnetic Pole has been located by a thorough series of magnetic observations and the little sloop Gjoa was forced through the Northwest passage, thus making not only a record pioneer voyage, but a new map of the northern boundary of North America.

Danish Greenland, Mylius Erichsen, private subscription, Greenland, 1902-4. Literary and artistic results.

Russian Arctic, Baron Ed von Toll, private subscription, New Siberia Islands, 1902. Now in field; believed to be lost.

Hubbard Labrador, Leonidas Hubbard, Outing Magazine, Interior of Labrador, 1903-4. Insufficient supply of food compelled the party to abandon the enterprise. Mr. Hubbard died of starvation. Two independent parties embarked in May, 1905, to complete the work of the ill-fated Hubbard Expedition. The first was under the direction of Dillon Wallace, the companion of Hubbard, and the second was led by Mrs. Hubbard. Both expeditions succeeded in crossing Labrador from the south to Ungava Bay.

Peary North Pole, Comdr. R. E. Peary, Peary Arctic Club, North Pole, 1905. Commander Peary returned in Nov., 1906, reported having reached the farthest north, 87 deg. 6 min. a point on the ice of the Polar Sea, about 175 nautical miles from the geographical North Pole.

Charcot skirted the outer line of the Palmer Archipelago, noted that Bismarck Strait was a deep bay and made a connected series of scientific observations.

The Duke of Orleans, in a summer cruise along the pack ice of East Greenland, discovered that Cape Bismarck was an island, and beyond he saw the coast of a large land apparently continuous with Greenland, which was named Terre de France.

An expedition to Alaska, under the direction of Dr. Frederick A. Cook, explored and charted 3,000 square miles of land not previously mapped and made the first ascent to the top of our highest peak, Mt. McKinley, alt., 20,300 feet.

The record of the farthest north, 87 deg. 6 min., is held by Comdr. R. E. Peary, U. S. N.

The record of the highest ascent on the continent of North America, 20,300 feet, is held by Dr. Frederick A. Cook and his companion, Edward Barrille.

The record of the farthest south, 82 deg. 17 min., is held by Capt. Scott, of the British expedition.

## Interior Baths.

## MANHATTAN.

There is an interior permanent bath in Rivington, near Goerck, for male and female bathers, with 67 hot and cold showers, and 10 tubs. The place is open the year round daily from 6 A.M. to 9 P.M. It is free to the public. There is one at E. 106th, near 2d av.; one at 538 E. 11th, one at E. 76th, near John Jay Park; one at W. 1st, near 9th av.; also on Allen, near Rivington, and one at W. 60th, near West End av.

Five more interior baths are projected, as follows: One between Av. A. East River, 23d and 24th, to cost \$200,000, and to be opened in the spring of 1907; one at Rutgers and E. R., one at 83 and 85 Carmine, one at Cherry and Oliver, one at E. 54th, near 1st av. Appropriations are available for one or two others, but sites have not been selected.

## BROOKLYN.

There are five interior baths in operation, one on Hicks, near Degraw; another on Pitkin av., near Watkins; another on Montrose av., near Union av.; another on Huron, near Manhattan av., and another on Duffield, in the Navy Yard section. The cost of these five baths aggregated \$454,600. The Hicks st. bath cost \$60,617.20, the Pitkin av. bath, \$37,850.90, and the Montrose av. bath, \$95,766.80. The Huron st. bath cost \$104,000 and the Duffield st., or Navy Yard bath, about \$114,000. During 1907 three more interior baths, to cost about \$450,000, will be constructed and will be opened about Jan. 1, 1908.

Each bath costs an average of \$21,365 annually to support.

## Public River Baths.

## MANHATTAN.

The city supports for the use of the public free floating baths on the East and North Rivers during July, Aug. and Sept., location of which vary so much that they cannot be given definitely.

On North River: Battery, W. 19th, W. 52d, W. 82d, W. 97th, W. 137th. On East River: Market, Corlears, E. 3d, E. 17th, E. 24th, E. 31st, E. 100th, E. 112th. Baths open July to Oct.; number bathers during summer reaches 3,000,000.

## BROOKLYN.

(Open in June. Close in September.) Bath No. 1, ft. of 58th; Bath No. 2, ft. of N. 1st; Bath No. 3, ft. of Noble; Bath No. 4, ft. of Conover; Bath No. 5, ft. of Dock.

## Public Comfort Stations.

## MANHATTAN.

Eight public comfort stations are open to the public: Battery Park, Hanover Square, City Hall Park, Chatham Square, Long Acre Square, Greeley Square, Sheriff and Delancey, 125th and Park av. Cost, about \$25,000 each.

## BROOKLYN.

A sum of \$128,000 was appropriated for the construction of six public comfort stations in Brooklyn, located as follows: One on Fulton, at Borough Hall (opened in Oct., 1903); B'way and Lorimer (opened in Oct., 1903); Reid av. and B'way (opened in Oct., 1903); East N. Y. and Liberty ave. (opened in Sept., 1903); Hamilton av. and Richards (opened in Sept., 1903), and at Mtn. and Greenpoint avs. (opened in Dec., 1903). Each of the stations cost \$21,000 and costs for maintenance an average of \$5,079.25 each per year.

## CITY OF NEW YORK MUNICIPAL GOVERNMENT.

## THE CHARTER OF NEW YORK CITY

The charter of the City of New York, as revised by Legislature of 1901, going into effect Jan. 1, 1902, is a development of the charters of the former cities of New York, Brooklyn and Long Island City, differing from all of them, however, by the introduction of the principle of local control over local affairs. In this feature the charter provides a system of government more nearly like that of London and continental cities. The original charter of the City of New Amsterdam was granted by the Dutch Government in 1653. Twelve years later, under English control, Gov. Nicolls granted a charter to "His Majesty's town of New York," substituting for the Schout, Burgomasters and Schepens of the Dutch government, Mayor, Aldermen and Sheriff.

The subsequent colonial charters, known by the names of Governors Dongan, Cornbury and Montgomerie, were granted respectively by them under King James II in 1686, Queen Anne in 1708 and King George II in 1730. The last named charter was confirmed by act of General Assembly of the colony in 1732. The original State constitution, and subsequent ones, have reaffirmed all the rights of the city granted previous to 1775. The first complete charter from the State was granted in 1813, and in 1830, and again, in 1873, revised charters were passed. In 1852 the Consolidation act, embodying a complete revision of the New York City Charter, was passed, and remained in force until the beginning of the year 1898.

The charter provided for the city at the time of consolidation remained in force, with minor amendments, until Jan. 1, 1902, when the charter now in force and which was prepared by a legislative commission of which Geo. L. Rives was chairman, with the view of correcting mistakes in the first Greater New York Charter, went into effect.

The original incorporation of Brooklyn as a village was effected by legislative action in 1816. This act was repealed and a new one passed in 1827. The first charter of Brooklyn as a city was enacted in 1834. This charter was revised in 1850, and in 1864 a new charter, consolidating the cities of Brooklyn and Williamsburg, was adopted. This charter was revised in 1873, and again in 1888. The last revision was in force until the independent existence of the municipality ended with the year 1897. The first charter of Long Island City was enacted in 1870 and a new one granted in 1871.

The amended Greater New York Charter follows, in the main, the lines of the charter of the old City of New York, with important provisions adapted from the Brooklyn charter and from those of other American and European cities. The greater part of it is the law as it has existed for half a century, and the chief change has been made necessary by the adoption of the borough system and the system of giving control to localities over their own affairs.

The charter is the governmental instrument for the territory embraced within the new limits of New York, comprising the former City of New York, on Manhattan Island, and in Westchester County, the former City of Brooklyn, coterminous with the County of Kings, the entire County of Richmond and the portion of Queens County included in Long Island City, the towns of Newtown, Jamaica and Flushing, and a part of the town of Hempstead. This territory is divided into these five boroughs: Manhattan, comprising Manhattan and the adjacent smaller islands, the Bronx, including the part of the former City of New York in Westchester County north of Harlem River and Spuyten Duyvil Creek, and the islands adjacent; Brooklyn, comprising all of Kings County; Queens, including part of Queens County named in the act of annexation, revised by Legislature of 1899; and Richmond, which consists of the county of that name, including the whole of Staten Island.

## THE MAYOR.

The executive power of the city is vested in the Mayor, the Presidents of the Boroughs and

the officers of the departments. The Mayor is the chief executive officer and he is a magistrate. His term begins at noon on the first day of January after his election and continues for four years. He is eligible for re-election. The salary of the office is \$15,000 per year. The Mayor appoints the heads of departments and commissioners, except those over which the Presidents of the Boroughs have jurisdiction, and except, also, the head of the Department of Finance. He can remove at any time any official appointed by him, except the members of the Board of Education and Aqueduct Commissioners, trustees of the College of the City of New York and trustees of some hospitals, and certain judicial officers. He himself can be removed from office by the Governor, after a hearing, upon charges.

His duties are to communicate to the Board of Aldermen, at least once a year, a statement of the finances, government and improvements of the city; to recommend to the same body such measures as he deems expedient; to keep himself informed of the work of all departments, and to be vigilant in enforcing ordinances and the laws of the State. Every three months he must report to the Board of Aldermen the expenses and receipts of his office, stating the salaries paid to and the nature of the duties of his clerks and subordinates, whom he has the power to appoint. The Mayor has the power of veto over all ordinances and resolutions of the Board of Aldermen, but if he does not disapprove they become laws after a lapse of ten days.

An ordinance or resolution can be passed over the Mayor's veto by a vote of two-thirds of all the members elected to the Board of Aldermen, except that when it involves the expenditure of money, the creation of a debt, or the laying of an assessment, a three-fourths vote is required. The Mayor countersigns all warrants drawn by the Comptroller upon the Chamberlain for payments on behalf of the corporation. He has also to sign all bonds, together with the Comptroller. In the absence or sickness of the Mayor the President of the Board of Aldermen is the Acting Mayor. He shall not appoint to, or remove from, office any official, unless the absence of sickness of the Mayor continues thirty days, nor shall he approve or disapprove any resolution or ordinance unless such absence or sickness continues nine days.

## OFFICES OF BOROUGH PRESIDENTS.

The Presidents of the Boroughs hold office for a term of four years. They have offices in the Borough Halls of their respective boroughs and are ex officio members of the Board of Estimate and Apportionment. In that board the Presidents of the Boroughs of Manhattan and Brooklyn have two votes each and the Presidents of the other boroughs one vote each. The President of the Borough presides over each local board in his borough. He has the right to vote on and of veto over the action of any local board. Each Borough President is a member of the Board of Aldermen and has the same right to vote as any member elected to the Board of Aldermen. The Borough President may appoint and at pleasure remove a Commissioner of Public Works for his borough, who may discharge all the administrative power of the President of the Borough relating to streets, sewers, public buildings and supplies, and who shall in the absence or illness of such president discharge the duties of such president. The President of the Borough has cognizance and control of all matters relating to the improvement and repair of streets and sewers. He has control of the public buildings within his borough, except schools, hospitals, fire and police stations, penitentiaries, etc. He is empowered to exercise the supervision vested in the city over the construction of buildings in his borough, except such powers as are directly vested in the Tenement House Commission, and to that end he is authorized to appoint a Superintendent of Buildings. In the Boroughs of Richmond and Queens the President of the Boroughs in addition to other powers, have jurisdiction over the cleaning of streets and the removal of ashes and garbage. The Secretary appointed by the President acts also as Secretary of the local boards. The Presidents have also the right to appoint members of local school boards.

## LEGISLATIVE DEPARTMENT.

The legislative power of the City of New York is vested in the Board of Aldermen, consisting of 73 members elected from that number of aldermanic districts, of the President of the Board and the Presidents of the Boroughs. They are elected for a term of two years. The aldermen elected to the board are paid two thousand dollars per year and the president of the board is paid five thousand dollars per year, and is elected on a general ticket by the voters of the city. Each head of an administrative department of the city is entitled to a seat in the Board of Aldermen, and shall attend its meetings when required by the board. He is required also to answer any questions put to him by any member relating to the affairs of his department, providing he is given forty-eight hours' notice that such a question is to be put. He is given a right to partake in the discussion of the Board, but no right to vote. No member elected to the Board of Aldermen is eligible to

## CITY OF NEW YORK MUNICIPAL GOVERNMENT—Continued.

any other office under the city during the term for which he was elected. The board is required to meet at least once a month, except during the months of August and September. Resolutions and ordinances of the board must be passed by a vote of a majority of the members of the board. It cannot authorize the expenditure of any money for any celebration, procession, funeral, reception or entertainment, except by a vote of four-fifths of its membership. If a resolution or ordinance of the Board of Aldermen is vetoed by the Mayor it can be repassed only by a two-thirds vote; provided that in case the ordinance or resolution involves the expenditure of money, the collection of a debt, or the levying of an assessment a three-fourths vote is required. The Board of Aldermen is required to act within six weeks upon certain resolutions or votes of the Board of Estimate and Apportionment relative to the creation of a debt by the issue of bonds, the granting of a franchise and the right to use the streets, avenues, water works or highways of the city. If a majority of the Board of Aldermen votes against any such proposition it is deemed as rejected. If a majority does not vote against such proposition within the six weeks specified, the proposition is regarded as having passed by the requisite vote of the board. The Board of Aldermen is authorized to fix salaries of all city employees other than day laborers, teachers, examiners and members of the supervising staff of the Board of Education. Such action, however, can only be taken upon the recommendation of the Board of Estimate and Apportionment, and the Board of Aldermen cannot increase any salary recommended by the Board of Estimate and Apportionment, but may decrease any salary recommended. In case, however, of the board voting to reduce any salary, the Mayor may veto such action.

## THE LOCAL BOARDS.

The districts of local improvements in the entire city are numbered 1 to 22, and each in addition is given a name by which it will be known. (See page 122.) The President of the Borough as chairman and the Alderman residing in each local improvement district constitute the local board. The local boards are empowered to initiate such improvements as grading and paving streets and constructing sewers, subject to the approval of the Board of Estimate, if they involve an assessment. If the improvement involves a cost of more than five hundred thousand dollars, it must be approved by the Board of Aldermen. When the cost of flagging sidewalks, grading lots or fencing lots is less than two thousand dollars, the approval of the Board of Estimate and Apportionment is not necessary, and it then becomes the duty of the Borough President to execute the work. In all other matters resolutions of the local boards must be approved by the Board of Estimate and Apportionment, and in some instances by the Board of Aldermen also, and when so approved the resolution of approval is transmitted to the Borough President, who then directs the execution of the work. The local boards are also authorized to hear complaints of nuisances in streets or against disorderly houses, drinking saloons conducted without the observance of licenses, gambling houses or other matters concerning the peace or good government, and concerning the condition of the poor within their respective districts. In such matters they are empowered to pass such resolutions as may not be inconsistent with the powers of the Board of Aldermen or with the respective administrative powers of the City of New York.

## HOW TO OBTAIN LOCAL IMPROVEMENTS.

All petitions for local improvements should be addressed to the President of the Borough for presentation in the Local Board having jurisdiction. Petitions for original improvements, such as grading and paving and the construction of sewers and for the opening of streets,

should be signed by at least two persons. If the Local Board, after hearing, approves any proposed original improvement, it forwards a proper resolution to the Board of Aldermen, if required, and when that Board approves, the result of its action is transmitted to the Borough President, who then executes the work. Assessments on such improvements are not levied until after the work is completed, and the city loans its credit for doing the work by issuing assessment bonds. When the work is finished and assessments levied 7 per cent. interest is charged until paid.

Repaving is done at the expense of the city at large, unless a majority of property owners by petition offer to bear a part or all of the expense.

## FINANCE DEPARTMENT.

Stewart Building, Chambers st. and Broadway, Manhattan.

The Comptroller of New York City is the head of the Department of Finance, which has control of the fiscal affairs of the corporation. His term of office is four years from noon on the first day of January succeeding his election, and he may be removed from office by the Governor upon charges and a hearing. Any vacancy in the office is to be filled by the Mayor. The salary of the office is \$15,000 a year. The Comptroller is ex-officio a member of the Board of Estimate and Apportionment, the Aqueduct Commission, the Board of City Record, the Bank Commission, Board of Revision of Assessment, the Rapid Transit Railroad Commission and the Sinking Fund Commission. He has power to appoint two deputies, who shall have all the powers and duties of the Comptroller for a period not exceeding three months whenever so designated in writing by the Comptroller. He also appoints the heads of all Bureaus and Divisions of the Department of Finance, except the Chamberlain. There is another bureau in the Comptroller's office for the reception and safe keeping of all moneys paid into the treasury and for the payment of money on warrants drawn by the Comptroller and countersigned by the Mayor. At the head of this is the Chamberlain, but he is appointed by the Mayor and serves during the pleasure of the Mayor. He gives a bond for \$300,000 and receives a salary of \$12,000 a year. He shall receive all moneys paid into the city treasury. He shall pay all warrants issued by the Comptroller and countersigned by the Mayor. The receiver of taxes and the collector of assessments and arrears each gives a bond for \$25,000, to be approved by the Comptroller and City Chamberlain. Each has his chief office in Manhattan and a branch office in each of the other boroughs, where taxes and assessments upon property in that borough are payable.

The Comptroller is authorized to advertise for proposals for the purchase of bonds and stocks of the city. All bonds issued after January 1, 1898, except assessment and revenue bonds, shall be known as "corporate stock of the City of New York." For its redemption and payment the faith and credit of the city are pledged. The form of the same shall be designated by the Comptroller and be signed by him and the Mayor, and sealed with the city's seal and attested by the City Clerk. In coupon form the stock shall be in sums not less than \$500 each share, or it may be registered, and it shall be redeemable in not less than ten nor more than fifty years after date, to be paid in gold coin or in the legal currency of the United States, at the option of the Commissioners of the Sinking Fund. Bonds may be issued in registered form in denominations of \$10 or any multiple thereof. Revenue bonds to be redeemed from the proceeds of the tax levy, may be issued to meet the expenditures under the appropriations of each current year. Special revenue bonds may be issued for certain specified purposes.

## CITY OF NEW YORK MUNICIPAL GOVERNMENT—Continued.

When authorized by the Board of Estimate and Apportionment, the Comptroller can issue assessment bonds to meet expenses incurred in regulating and paving streets, building sewers and all other work done by contract, the cost of which is to be met by assessments in whole or in part upon the property benefited. The Comptroller shall have sole charge of the Wall-about Market. He shall publish in the City Record within two months after the close of each calendar year a full and detailed statement of the receipts and expenditures of the corporation the preceding year and the cash balance.

**DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY.**

The Commissioner of Water Supply, Gas and Electricity has charge of all property connected with the supply and distribution of water for public use; the maintenance of the supply; the collection of water revenue, and the enforcement of regulations concerning the use of water. He has power throughout the state, with the approval of the Board of Estimate and Apportionment, with the concurrence of the Board of Aldermen, to select the sources of water supply for the city. The

Commissioner may spend not more than two million dollars annually to extend the water service, with the consent of the Board of Estimate, without the concurrence of the Board of Aldermen. Also may use the water income in Brooklyn in the same manner to improve the service in that borough. He executes contracts, when authorized, for the lighting of the city and has certain powers of inspection over gas and electricity used for lighting, heating and power purposes.

He is required to appoint two deputies, salary \$5,000 a year each, one of whom shall sit in the office of the Department in the Borough of Brooklyn. Members of the three cities consolidated are made members of the Fire Department with the same rank and grade. The Commissioner is treasurer of the Department and as such has to give a bond of \$100,000. He is also trustee of the Fire Department Relief Fund, for which he has to give a bond of \$20,000. He possesses all powers and performs all duties for the government, management, maintenance and direction of the department, which has sole and exclusive power and authority to extinguish fires in the city. The Commissioner has power to select the heads of bureaus and assistants and as many officers and firemen as may be necessary, but the assignments to duty of the uniformed force are to be recommended by the chief of the department. The Commissioner prescribes the rules and regulations for the government of the Department. He is to appoint a Fire Marshal for Manhattan, The Bronx and Richmond and a Fire Marshal to be seated in Brooklyn, and to exercise his powers in Brooklyn and Queens, each with a salary of \$3,000, and empowered to inquire into the origin of fires, both of whom must be members of uniformed force. A pension bureau is connected with the Department.

A tax of 2 per cent. is laid on the business of foreign insurance companies, which shall go to this pension fund.

## DEPARTMENT OF HEALTH.

S. W. cor 55th st. and 6th av., Manhattan. The Board of Health consists of the Commissioner of Health, at a salary of \$7,500 per year; the Police Commissioner and the Health Officer of the Port. Their duty is to enforce, so far as practicable, all the laws of the State and the provisions of the Sanitary Code within the city limits and the waters adjacent thereto for the preservation of human life and the care, promotion and protection of health. The Board has the power to remove any person suffering from contagious disease to a proper place for treatment and to avert all causes of disease or peril to life or health. The Sanitary Code in force on Jan. 1, 1902, is continued. The department is to maintain two bureaus, one under a Sanitary Superintendent at \$5,000 a year, and the other under the Registrar of Records at \$4,000 a year. Offices are to be maintained in all the boroughs, with assistants in charge of the branch offices of these bureaus. A full record of all births, deaths and marriages is to be kept by the department.

**BOARD OF ESTIMATE AND APPORTIONMENT.**

Secretary's Office, 277 Broadway, Mhnt.  
The Board of Estimate and Apportionment consists of the Mayor, Comptroller, President of the Board of Aldermen and Presidents of the Boroughs. The Mayor, Comptroller and President of the Board of Aldermen have three votes each; the Presidents of the Boroughs of Manhattan and Brooklyn, two votes each, and the Presidents of the other Boroughs one vote each. Between the 1st day of October and the 1st day of November the Board of Estimate and Apportionment prepares a budget of the amounts estimated to be required to pay the expenses of the city during the coming year. When such budget is prepared it is submitted to the Board of Aldermen, which may decrease any appropriations, but may not increase any appropria-

tion. In case of a decrease of an appropriation by the Board of Aldermen, such action is reviewable by the Mayor, and if he vetoes such action, it can be overridden only by a three-fourths vote of the Board of Aldermen. The Board of Estimate also succeeds to all the powers of the Board of Public Improvements not transferred to the Presidents of the Boroughs or other officials. In important instances the Board of Estimate and Apportionment may issue bonds for public improvements without the concurrence of the Board of Aldermen. The Board of Estimate and Apportionment also has charge of the granting of franchises, which was formerly in the Board of Aldermen.

**THE JUDICIARY.****Courts.**

The courts having jurisdiction are the Supreme Court, County Court and the Surrogate's Court.

The Supreme Court is the highest court of original jurisdiction in all actions in law and equity and in criminal cases. The County of Kings forms a part of the Second Judicial Dis-

trict and of the Second Appellate Department of the State.

The County Court has jurisdiction of all actions for partition of real property, for dower, foreclosure of a mortgage, etc.; for specific performance of a contract relating to real property where the real property is situated in the county; in an action to foreclose a lien not exceeding \$1,000 on a chattel when the chattel is found in the county, in favor of the executor, administrator or assignee of a judgment creditor, etc.; for any other cause where the defendant or all the defendants are residents of the county at the time of beginning this action, when judgment is demanded for money only not exceeding \$2,000, or to recover chattel or chattels not exceeding in value \$1,000; to the custody of the person and care of the property concurrently with the Supreme Court if the person is a resident of the county, etc.

The court has jurisdiction over all criminal cases; its jurisdiction is coextensive with that of the criminal branch of the Supreme Court.

The Surrogate's Court has jurisdiction in all matters appertaining to the estates of deceased persons who were at demise residents of Kings County, or where the deceased, not being a resident of State, died within the county, leaving personal property within the State, or where the deceased, not being a resident of the State, died without the State, leaving personal property within this county and no other; or where the deceased was not, at the time of his death, a resident of the State, but died possessed of real estate in this county, and no other.

## THE JUDICIARY.

## The Courts.

The courts having jurisdiction in New York County are: Supreme Court, Surrogate's Court, City Court of the City of New York. The Supreme Court is the highest court of original jurisdiction in all actions in law and equity and in criminal cases. The County of New York forms the First Appellate Division of the Supreme Court and the First Judicial District. The Supreme Court is divided into four parts—special term for trials, of which there are eight parts, and trial terms of which there are twelve parts; Supreme Court, criminal branch; appellate terms, to try appeals from City and Municipal Courts; appellate division, to hear appeals from the special and trial terms and from the appellate terms; also from the Surrogate's Court of New York County, and the courts of general and special sessions (criminal).

The City Court has jurisdiction in common law actions involving property to the value of \$2,000.

The Surrogate's Court has the same jurisdiction in New York County as Surrogate in Kings County, which see.

There are twelve Municipal Courts in Manhattan and two in The Bronx having jurisdiction in civil cases involving property to the value of \$250.

The Court of General Sessions has jurisdiction as a city court in criminal cases.

The Court of Special Sessions, held by 3 city magistrates, tries cases without jury for minor causes.

## SAN FRANCISCO EARTHQUAKE.

At 5:13 A.M. Apl. 18, 1906, an earthquake, central at San Francisco, Cal., shook the entire Pacific coast with seismic disturbances reaching across the continent to Washington, D. C. The shock demolished many large structures, and crippling the water works, left the entire city at the mercy of fires which quickly sprang up from the ruins and swept the entire business section and a large portion of the resident district. The total area burned was about 3,000 acres, or about 4.7 square miles, containing 520 blocks and about 25,000 buildings. One-half of these were residences. Between 40 and 50 hotels and apartment houses were wiped out and among the prominent buildings destroyed were the City Hall, Call Building, Pacific States Tel. Co., Rialto Building, Mutual Life Building, Lick House, Occidental House, St. Francis Hotel, Western Union Building, Postal Telegraph Building, Valencia Hotel, Mack Drug House, Hall of Justice, Grand Opera House, Southern Pacific Terminal, Gore Block, Monadnock Building, Studebaker Carriage Factory, Post Office, Fish Market.

The total loss of life by shock and fire was approximately 1,000, with 300,000 left homeless; the property loss, \$350,000,000; the insurance \$235,000,000, \$150,000,000 of which had been paid up to Oct. 29, 1906, and it is estimated that the total payments will be 80 per cent. of the total insurance. The total insurance payment in the great Chicago fire was 50 per cent., that of the Baltimore fire 20 per cent. The range of the shock in its severity extended from Santa Rosa on the north to Salinas on the south about 250 miles. San Jose, Santa Rosa and Salinas each suffered from wreckage. May 1, 1906, the total relief contributed to San Francisco sufferers was: National, \$20,000,000, of which N. Y. City contributed \$3,500,000.

The Eagle Information Bureau was promptly offered as a relief station and much of the aid forwarded from Brooklyn was either left at the Eagle Building or sent for by Eagle wagons. In addition, the Information Bureau devoted itself daily and Sunday for over two weeks to the making of inquiries in behalf of friends and relatives of residents in the unfortunate city. Large maps were carefully marked and revised daily to show the burned district, directories were used and newspaper accounts carefully indexed and collated. Over 500 telegrams were sent free of charge to San Francisco and the Eagle also paid all charges on answers. These answers were a source of great comfort to many Brooklynites, forming as they did, in many instances, the first and for a long time, the only word received from the scene of the calamity.

## PATRICK'S FIGHT FOR LIFE.

The trial of Albert T. Patrick, indicted for the murder, by poisoning, of William Marsh Rice, who died Sept. 23, 1900, was one of the most notable cases in the annals of any court. Planning his own defence, seizing every straw of legal technicality, making use of every loophole, so extraordinary has been his fight that lawyers all over this country, and in other lands as well, watched it with unceasing interest.

The important dates follow:

Oct. 4, 1900, arrested; Jan. 20, 1902, trial begun; March 26, 1902, convicted; April 7, 1903, put in death house at Sing Sing; Feb. 10, 1903, appeal for new trial; March 3, 1903, petition for new trial denied by trial court; May 20, 1904, argument on appeal to Court of Appeals postponed for second time; Feb. 12, 1905, argument for reopening case; March 15, 1905, argument for new trial; June 9, 1905, court refuses to grant new trial—affirms conviction; June 14, 1905, refuses stay of execution; June 16, 1905, execution set for Aug. 7; June 24, 1905, motion for reargument and stay of execution granted; Oct. 27, 1905, loses appeal before Court of Appeals; Jan. 18, 1906, Governor granted reprieve; Nov. 28, 1906, Court of Appeals denies Patrick's motion for an amendment of the remittitur recording the court's dismissal of his appeal from conviction of murder in the first degree; Nov. 29, 1906, Justice Davy, in the Criminal Branch of the Supreme Court, ordered Patrick to appear before him for sentence; Dec. 6, 1906, Patrick resented; Feb. 19, 1906, Patrick's motion for new trial heard before Recorder Goff; July 11, 1906, Recorder Goff denied Patrick's application for new trial; Dec. 13, 1906, case, which had been carried to the U. S. Supreme Court, was withdrawn; Dec. 20, 1906, death sentence commuted by Governor Higgins to imprisonment for life.

## International S. S. Convention.

An International S. S. Convention will be held in a large hall in the City of Rome, Italy, from May 20th to the 23d, 1907. The delegates and workers in attendance will represent 262,000 S. S., with 25,000,000 members, from Iceland to Cape Colony, and from Alaska to Tibet. There will be a vesper service within the ruins of the Coliseum, in which men and women of all languages and tongues will participate. It will be the fifth international convention, two being held in London, in 1839 and 1893; one in St. Louis, in 1893, and one in Jerusalem, in 1904.

## Merger of Bkln S. S. Association.

The Board of Managers of the Bkln. E. D. S. S. Assn. voted Dec. 8, 1907, to merge with the Bkln. S. S. Union. It is expected that the Greenpoint S. S. will also vote to merge. The Bkln. Union has 230 schools, the E. D. 40, and the Greenpoint 18. The two latter will merge as branches, being represented by delegates in the general board of management.

## PRICES OF COMMODITIES PROPORTIONED TO CONSUMPTION.

In the following table Dun's Index Number, compiled by R. G. Dun & Co., is given for July 1, each year, beginning with 1860. Figures are separated into the seven principal classes for convenience of comparison. Many hundred commodities are embraced in the table. In explanation of the Index Number it should be stated that quantities of each commodity are taken in accordance with the annual per capita consumption, so that no article receives more or less than its relative position in the market. The same articles at each date the record gives a faithful representation of the course of prices.

**Louisiana-Mississippi Boundary.**

The boundary dispute between the States of Louisiana and Mississippi was decided by the Supreme Court in favor of Louisiana March 5, 1906. Louisiana is allowed its full claim for jurisdiction over the swampy islands and oyster beds claimed by both states. The boundaries fixed by the acts admitting the two states were at variance, Louisiana being given the islands within three leagues from the coast and Mississippi those within six leagues from the shore. The court found that Louisiana's rights to the territory had been recognized by the United States government and acknowledged by Mississippi for eighty years, and that was conclusive.

**The Manchurian Treaty.**

The ratification of treaty between Japan and China with reference to Manchuria provides for the opening of sixteen cities throughout Manchuria as places of international trade and residence, as follows: In the Province of Shengking: Tengkhangcheng, Liaoyang, Hsinmintung, Tieling, Tungkiangtsu and Takumen. In the Province of Kirin: Changchun (Kuan-chengtsu), Kirin, Harbin, Ninguto, Hunchun and Sanghai. In the Province of Heilungkiang: Tsitsihar, Hallor, Aihun and Manchuli.

## UNITED STATES NAVAL AND MILITARY ACADEMIES.

**Naval Academy, Annapolis, Md.**

The students of the Naval Academy are styled midshipmen. Two are allowed for each Senator, Representative and Delegate in Congress, two for District of Columbia and five each year from United States at large. The appointments from District of Columbia and five each at large are made by the President. One is allowed from Porto Rico, who must be a native of that island. The appointment is made by the President on recommendation of the Gov. of Porto Rico. The Congressional appointments are equitably distributed, so that in regular course each Senator, Representative and Delegate in Congress may appoint one during each Congress. After June 30, 1913, each Senator, Representative and Delegate in Congress will be allowed to appoint but one midshipman instead of two.

The course for midshipmen is 6 years—4 at the Academy and 2 years at sea, at the expiration of which time examination for final graduation takes place.

Certificates from colleges and high schools will not be accepted in lieu of the entrance examinations at the Naval Academy; all candidates must take the prescribed mental and physical examination before being admitted.

Midshipmen who pass the examination for final graduation are appointed to fill vacancies in the lower grades of the line of the Navy and of the Marine Corps in order of merit.

"The Sec. of the Navy shall as soon as practicable after the 6th day of March in each year notify in writing each Senator, Representative and Delegate in Congress of any vacancy which may be regarded as existing in the State, District or Territory which he represents, and the nomination of a candidate to fill such vacancy shall be made upon the recommendation of the Senator, Representative or Delegate. Such recommendation shall be made by June 1 of that year, and if not so made the Sec. of the Navy shall fill the vacancy by the appointment of an actual resident of the State, District or Territory in which the vacancy exists, who shall have been for at least 2 years immediately preceding his appointment an actual bona fide resident of the State, District or Territory in which the vacancy exists, and shall have the qualifications otherwise prescribed by law. And provided further, that the Supt. of the Naval Academy shall make such rules, to be approved by the Sec. of the Navy, as will effectually prevent the practice of hazarding; and any cadet found guilty of participating in or encouraging or countenancing such practice shall be summarily expelled from the Academy, and shall not thereafter be reappointed to the Corps of Cadets or be eligible for appointment as a commissioned officer in the Army or Navy or Marine Corps until 2 years after the graduation of the class of which he was a member." (Act approved March 4, 1903.)

There are two preparatory schools in Annapolis for candidates for entrance into the U. S. Naval Academy—one conducted by Prof. J. R. Wilmer, the other by Prof. R. L. Wertz, both of Annapolis.

Candidates allowed for Congressional Districts, for Territories and for the District of Columbia must be actual residents of the Districts or Territories, respectively, from which they are nominated. All candidates must, at the time of their examination for admission, be between the ages of 16 and 20 years. A candidate is eligible for appointment on the day he becomes 16 and is ineligible on the day he becomes 20 yrs. of age. The pay of a midshipman is \$500 a year, commencing at admission. Supt., Rear Admiral Jas. H. Sands, Naval Academy, Annapolis, Md.

**Military Academy, West Point, N. Y.**

Each Congressional district and Territory—the District of Columbia and also Porto Rico—is entitled to have one cadet at the Academy. Each State is also entitled to have two cadets from the State at large, and 40 are allowed from the U. S. at large. The appointment from a Congressional district is made upon the recommendation of the Congressman from that district, and those from a State at large

upon the recommendations of the Senators of the State. Similarly the appointment from a Territory is made upon the recommendation of the delegate in Congress. Each person appointed must be an actual resident of the State, district or territory from which the appointment is made. The appointments from the U. S. at large, from the District of Columbia and for Porto Rico are made by the President of the U. S. upon his own selection. The appointment of the cadet from Porto Rico is made by the President on the recommendation of the resident commissioner. Applications may be made at any time, by letter to the Adjutant General, U. S. Army, Washington, D. C., to have the name of the applicant placed upon the register that it may be furnished to the proper Senator, Representative or delegate, when a vacancy occurs. The application must exhibit the full name, date of birth and permanent abode of the applicant, with the number of the Congressional district in which his residence is situated. Appointments are required by law to be made one year in advance of the date of admission, except in cases where, by reason of death or other cause, a vacancy occurs which cannot be provided for by such appointment in advance. These vacancies are filled in time for the next examination. For each candidate appointed there may be nominated two alternates. The principal and each alternate will receive from the War Dept. a letter of appointment, and must appear for examination at the time and place therein designated; those previously accepted by Academic Board on certificate or mentally qualified, appearing for physical examination only, should the principal and alternates not qualify for admission they will still be entitled to appear for the examination, but if the principal fails to appear for that examination, or, appearing, fails to qualify, then the qualifications of the alternates will be considered, and if only one has met the requirements he will be admitted; if both alternates have met the requirements, the better qualified will be admitted.

The alternates, like the principal, should be designated as nearly one year in advance of the date of admission as possible. Candidates selected for appointment shall appear for mental and physical examination before boards of army officers to be convened at such places as the War Department may select, on the first of May, annually, except when that day comes on a Sunday, in which case the examination shall commence on the following Tuesday. Candidates who pass successfully will be admitted to the Academy without further examination upon reporting in person to the Supt. at West Point before 12 o'clock noon the 15th day of June of the same year. Each candidate before he shall be admitted to the Academy as a cadet must show, by the examination, that he is well versed in the following prescribed subjects, viz.: Reading, writing, spelling, English grammar, English composition, English literature, arithmetic, algebra through quadratic equations, plane geometry, descriptive geography and the elements of physical geography, especially the geography of the U. S., U. S. history, the outlines of general history and the general principles of physiology and hygiene. No candidate shall be admitted who is under 17 or over 22 yrs. of age, or who is deformed or afflicted with any disease or infirmity which would render him unfit for the military service, or who has, at the time of presenting himself, any disorder of an infectious or immoral character. Accepted candidates, if bet. 17 and 18 yrs. of age, should not fall below 5 ft. 3 in. in height and 100 lbs. in weight; if bet. 18 and 19 yrs., 5 ft. 3½ in. in height and 106 lbs in weight; if over 19, 5 ft. 4 in. in height and 110 lbs. in weight. Candidates must be unmarried. Each candidate must, on reporting at West Point, present a certificate showing successful vaccination within 1 yr.; or a certificate of two vaccinations, made at least a month apart, within 3 months. ## General Staff of the Army.

On Aug. 15, 1903, the system of military control in the Army was reorganized under the provisions of the General Staff Act, approved Feb. 14, 1903. This act abolished the separate office of General Commanding the Army, provided for a military Chief of Staff to the President, who, acting under the directions of the President, or of the Secretary of War representing him, should have supervision not

only of all troops of the line, but of the special staff and supply departments which had theretofore reported directly to the Secretary of War; and it created for the assistance of the Chief of Staff a corps of 44 officers, who were relieved from all other duties. The function of this new corps is described by the statute in the following words:

Sec. 2. That the duties of the General Staff Corps shall be to prepare plans for the

tional defense and for the mobilization of the military forces in time of war; to investigate and report upon all questions affecting the efficiency of the Army and its state of preparation for military operations; to render professional aid and assistance to the Secretary of War and to general officers and other superior commanders, and to act as their agents in informing and co-ordinating the action of all the different officers who are subject, under the terms of this act, to the supervision of the Chief of Staff, and to perform such other military duties not otherwise assigned by law as may be from time to time prescribed by the President.

## REMARKS.

All officers below rank of rear-admiral or brigadier-general are entitled to 10 per cent. upon full yearly pay of their grades for every period of 5 years' service, as increase for length of service, or "longevity pay," computed upon actual service in Army, Navy and Marine Corps; provided the total amount of increase shall not exceed 40 per cent. upon full yearly pay of the grade; also that pay of a captain in the Navy or colonel of Marines shall not exceed \$4,500 per annum, and of a commander in the Navy or lieutenant-col. of Marines \$4,000 per annum.

Officers of the line, Medical and Pay Corps of the Navy retired prior to passage of act approved March 3, 1899, receive same pay on retired list that they received before passage of said act. Those retired subsequently receive 75 per cent. of pay (salary and increase) of their rank.

During a period of 12 years from June 7, 1900, any officer on retired list may be ordered to such duty as he may be able to perform, and shall receive pay of an officer of active list.

Allowances—The monthly commutation allowance for quarters of the Admiral of the Navy is \$125. All other commissioned officers of the line and Medical and Pay Corps of the Navy, and officers of Marine Corps receive same allow-

ances, except forage to naval officers, as are or may be provided by law for the officers of corresponding rank in the Army. When quarters in kind are not supplied, commutation is allowed at the rate of \$12 per month per room.

Boatswains, gunners, carpenters, sailmakers, warrant machinists, pharmacists and mates receive the same commutation for quarters as second lieutenants of the Marine Corps.

The pay of officers serving on shore in Cuba, Philippine Islands, and Alaska is increased 12 per cent. of the pay proper, exclusive of longevity additions, and pay of enlisted men of the Marine Corps serving on shore in those places is increased 20 per cent. above regular rates of pay exclusive of longevity additions, to be computed from and including May 28, 1900.

## The Lincoln Log Cabin.

After being stored three years in the cellar of the old Poppenhusen mansion in College Point, L. I., the logs that formed the cabin in which Abraham Lincoln was born were removed Feb. 21, 1906, to a storage house in Manhattan. They were the property of David Greer, a New York builder, who bought them from A. W. Dennett. The latter owned the Lincoln farm, and the log cabin was taken apart and sent to Buffalo for exhibition during the fair, 1901. There are over 200 logs, and a door and one shutter of the cabin window, besides some pieces of boards. The logs were purchased recently by the Lincoln Farm Association, and will be stored here until the association is ready to rebuild the cabin on its original site on the old farm near Hodgenville, Ky.

## Strikes in Germany.

Strikes increase in number every year in Germany. The average number of strikes for the years 1890 to 1903, inclusive, was 1,242; in 1904 it rose to 1,870, and in 1905 to 2,057. The number of lockouts averaged 42 for the period 1890 to 1903, rose in 1904 to 120, and in 1905 to 200. The figures for 1906, not yet available, will show a further considerable increase. The industry most seriously affected by the movement at the present time is that of the metal workers.

## Rubber Production.

The present total production of rubber throughout the world is estimated by French experts at 57,000 tons. Of this total 55 per cent. comes from America and Africa. The consumption of rubber by the principal countries of the world in 1904 was, in tons, as follows: The United States, 26,470; Germany, 12,800; Great Britain, 10,000; France, 4,130; Austria-Hungary, 1,320; Holland, 1,218; Belgium, 748; and Italy, only 588 tons.

## High Structures.

The Singer Mfg. Co. filed plans Feb. 20, 1906, for a structure at the corner of Broadway and Liberty, Mhntn., to rise 593 ft. above the street level. It will be 65 ft square, 86 stories in height, surrounded by a dome of four additional stories (a cupola and flagstaff); contains over 150,000 sq. ft. rest upon a bed rock foundation, and is to cost \$1,500,000. This is 60 ft. higher than the Philadelphia City Hall, 200 ft. higher than the Park Row or Times Building, Mhntn., and 81 ft. higher than the famous Cologne Cathedral.

## Facts About Matches.

The United Kingdom consumes 500,000,000 matches a day; 12 for every man, woman and child. Ninety tons of wood are used every day; 35,000 tons a year. Sweden and Norway export over 25,000 tons of wood in matches yearly. In France, where the tax on matches averages 8 cts. per inhabitant, consumption is comparatively small.

## Export of Canned Beef.

The exposure of the canned beef packing houses in the United States reduced exports during August, 1906, to 700,000 pounds, against 5,048,533 in August, 1905. Total for 1906, including August, 29,516,905; for 1905, 48,681,609.

## New Brooklyn Academy of Music.

On Jan. 30, 1905, the directors of the new Academy of Music formally announced the selection of a site for the new structure on the south side of Lafayette av., embracing the block running from Ashland pl. to St. Felix st., 176 feet; and 215 feet on each of the side streets, containing 37,840 square feet. It is less than 200 feet distant from Fulton st., through St. Felix st., and 250 feet from Flatbush av., a less distance than from Court st. to the entrance of the old Academy of Music, therefore accessible by all the trolley lines running through Fulton, and 800 feet from the great center to be established at Flatbush and Atlantic avs. by the Pennsylvania R. R., the Long Island R. R. and the Subway station. The chairman of the building committee is Lowell M. Palmer. Edward C. Ward is secretary, with offices in Temple Bar Building.

At this time, Dec. 11, 1906, great efforts are being made to complete the \$1,000,000 capital stock, with every evidence of success at an early date. Details of the plans and competition will be found in the Eagle Almanac for 1906. Contracts for building have been made with John Thatcher & Son, and the building is now under erection, with the hope that it will be ready by the fall of 1907.

The Board of Directors include Chas. A. Schieren, Pres.; Willis L. Ogden, Vice-Pres.; Edwin C. Ward, Sec.; Crowell Hadden, Treas., Executive Committee, Alfred T. White, Abraham Abraham, Frank Bailey, Frank L. Bab-bott Lowell M. Palmer, Finance Committee, Henry Batterman, Robert B. Woodward, Chas. M. Pratt, S. B. Chittenden, Carl H. DeSilver, A. Augustus Healy, Martin Joost, M. W. Littleton, J. Adolph Mollenhauer, John M. Moser, Herman A. Metz, A. E. Orr, Henry Roth, Samuel Rowland, E. M. Shepard.

## BROOKLYN NAVY YARD.

The Brooklyn Navy Yard was established Feb. 23, 1801, when the first land, consisting of 20 acres was bought from John Jackson for \$40,000. It now comprises 144 acres, situated on Wallabout Channel of the East River, and has a water front of nearly 3 miles. The main entrance is at Sands and Navy sts., and was opened in 1896. The water front of the Navy Yard is protected by a sea wall of granite about 3 miles in length.

The ship of the line "Ohio" was the first vessel built in this yard. In 1815 the "Fulton," the first steam war vessel, was built at the yard after plans prepared by Robert Fulton.

The Navy Yard is open daily, except Sundays and holidays, from 8 A.M. to 5 P.M., when any one may enter and inspect the place. Passes to visit the yard are not necessary, but can be obtained by letter, addressed to the "Captain of the Yard." Permission to visit the ships must be obtained from their commanding officers. A pass is necessary on Sundays and holidays.

a The amounts in this column include receipts from duties on imports and tonnage tax. b The amounts in this column represent the total receipts of money covered into the Treasury by warrant, whereas the internal revenue receipts, as shown in the Annual Report of the Commissioner of Internal Revenue, represent amounts reported by collectors of internal revenue as having been collected during each fiscal year. c Amounts heretofore credited to Treasurer as unavailable and since recovered and charged to his account.

In the tariff law of 1894 provision was made for levying a tax upon incomes, to be paid by individuals as well as by corporations. Before the first assessment became due the tax was declared to be unconstitutional by the Supreme Court. The returns made to the Commissioner of Internal Revenue before the decision was rendered gave the amount of tax returned by individuals (\$8,672 returns) to be \$6,128,051, and by corporations (29,653 returns) to be \$9,815,697, or a total of \$15,943,748. When the bill was before Congress it was estimated that it would produce in the first year of operation \$30,000,000.

## The English Language in Antwerp.

Nearly one-half of the shipping traffic to and from Antwerp, Belgium, is carried on under the British and American flags, and has made Antwerp almost an English-speaking port. Free night schools for exclusive classes in English are organized by the city authorities, while special attention is paid to the study of Eng-

lish in all the grades of the day schools, public and private. This desire to popularize the English language has extended to Germany, where recent orders of the government require the officials and employees of the railroads to learn and speak the English language. Schools of instructions for this purpose have already been established at Munich and Nuremberg by the German government.

## FINANCIAL REVIEW OF THE YEAR 1906.

Although 1906 was recorded as the year of the most unprecedented industrial and commercial prosperity in the history of the nation, this was not true of its stock or security markets. The reason for this was that the natural impetus of high record profits, big earnings by all corporations, many increased dividends and widespread activity in all lines of trade forced an excessive strain on credits. In consequence, by far the dominant financial and economic development of the year was the almost continuous stringent money conditions and high rates, not only in this country but in most foreign countries and particularly England and Germany.

Stock market prices for the year moved very irregular and with wide changes. The highest general average was made in January, and this was also the highest level ever attained. In April, May and July there were sharp breaks followed by a recovery in the late summer and early fall months. In December there was another decline in the money tightness following big capital increases by St. Paul, Great Northern and Northern Pacific. The general average, however, at the year's end is below that at the year's opening. Stock dealings on the New York Stock Exchange were the largest on record. The total in round numbers was 288,000,000 shares, against 282,500,000 shares in 1905 and the previous largest yearly total of 285,500,000 shares in 1901. Bond transactions were well below the previous year, or a total of \$676,000,000, against 1905's high record year of \$1,024,000,000. A notable feature of stock transactions in 1906 was the many "million share days," the largest of any year to date and numbering 125 against 108 in 1905, or the largest in any previous year.

By far the most sensational episode of the year from the financial viewpoint was the San Francisco fire and earthquake on April 18. This resulted in a property loss of some \$50,000,000, of which \$19,000,000 was by fire insurance companies. Of the latter amount about \$75,000,000 was lost by foreign companies. This caused the biggest stock market break of the year, with losses in individual stocks of from 5 to 15 points and of 20 or more in high priced specialties. A heavy currency outflow to Frisco from this center, as well as Western points, followed and did much to increase money tightness. Many bankers argued that the waste of capital from the Frisco fire, the similar waste of some \$50,000,000 of property by the later Valparaiso earthquake—both following upon the previous year's waste of some \$2,000,000,000 as a result of the Russian-Japanese war—was to a large degree responsible for the year's world-wide money stringency.

The speculative event of the year occurred in Aug., when the dividend on Union Pac., which had been raised from 5 to 6 per cent. in Jan. was unexpectedly increased to a 12 per cent. level, while the first dividend at a 5 per cent. rate was declared on Southern Pac. There followed a wild bull boom, with sensational rallies in these Harriman stocks and also in other rails, in regard to which rumors of coming dividend advances were promptly circulated. Something of a scandal followed the discovery that the dividend declarations were ordered two days before the public announcement. It was current gossip that Harriman and allied interests were back of the bull boom and had cleared \$25,000,000 as a result of speculating on their inside knowledge. A large number of other dividend increases were made during the year, notably by Penn. R. R., N. Y. Central, Amal. Copper, Anacosta, B. and O., and Atchafalaya. U. S. Steel's common stock dividend was also resumed at a 2 per cent. rate. Consol. Gas, Brooklyn Un. Gas, and Rock Island Co. were the prominent companies that cut their dividend payments.

Money tightness in 1906 was partly a heritage from 1905. Following the 125 per cent. call rate in Dec. of 1905 the new year opened with a 60 per cent. call rate. During the following weeks and months money eased off as was natural at this period, but only to go up to 30 per cent. in Apr. Although again easier in the following months it held comparatively

high for the period, as, for instance, a 6 per cent. rate in June and 8 per cent. in July. Throughout the autumn and winter months there was a continuous money pinch with 40 per cent. call money in Sept., 9 per cent. in Oct., 20 per cent. in Nov. and 36 per cent. in early Dec. Throughout practically the entire year, or in ten of its months, action was taken by Sec. Shaw to relieve the money pinch. Most important of these was the new ruling made in Apr., and again in Sept., offering to deposit government funds in banks if those institutions would import gold and pay interest while the gold was in transit. This saved the importing banks from the loss of interest. In March, April, July, Aug., Sept. and Dec. the Sec. made large increases of government deposits in banks, while in Jan. and Dec. he anticipated the interest due on the government debt. In Oct. he also permitted the substitution of other than government bonds to secure deposits, provided the released bonds were utilized in taking out new bank circulation. In Dec. the offer was made to redeem \$10,000,000 of the government 4s due next July.

The acuteness of the money strain is also reflected in the fact that on five occasions the N. Y. Associated Banks reported a deficit in their surplus reserves. The first was on Apr. 7 of \$2,560,625, the second on Sept. 8 of \$6,577,925, the third on Nov. 10 of \$1,514,125 and the fourth on Dec. 8 of \$6,702,175. The latter was the largest reported since the panic in Aug., 1893. On Dec. 15 the deficit was \$1,689,050. Time loans and commercial paper ruled high all year, in sympathy with call rates. In Apr. thirty-day loans were made as high as 9 per cent. and practically through the entire summer and fall at 6 per cent. and a commission was charged for all time loans and bringing the cost up to 7 and 8 per cent. In early Dec. 10 per cent. was bid for thirty-day loans. The 60 per cent. call rate of the first week in Jan. was also the highest for that period since the 96 per cent. rate in 1873. The 30 per cent. for call rates in Apr. was the highest for that month in over 20 years, while the 40 per cent. for the first week of Sept. was the highest on record for that period and for the month since 186 per cent. in 1890. The 27 per cent. call money rate of Nov. 30 was the highest for that date since 1881. The 36 per cent. call money rate for the first week in Dec. was the highest for that period since 1881. In Dec. thirty-day loans were made at 10 per cent., or the highest since 1902, when 14 per cent. was paid for sixty-day loans.

As in this country money tightness abroad became acute in the autumn, with the feature an advance in the Bank of England's rate in Oct. to 6 per cent., or a level heretofore reached only at times of panic. This rate was highest since the same level was reached in 1899 during the Boer War and in Nov., 1890, just before the Baring panic. In the past 25 years the Bank of England has only established a 6 per cent. rate in four years, or 1889 and 1832, in addition to the two named above. The Bank of Germany a week previous also raised its rate to 6 per cent., or the same level as during the Dec., 1906, strain. The Bank of England's raise was due to the desire to check gold imports to this country and protect its reserves. This was successful. In Dec. the Bank of Germany's rate was increased to 7 per cent. on a level reached only once before, or in 1890.

The foundation of the country's general prosperity was the big harvests. The year was unusually free from "crop scares." Even in Aug., when corn normally deteriorates, this year it improved. The final estimate of the yield showed a new high record crop of 2,927,416,091 bushels, against 1905's previous high record of 2,707,993,540 bushels. The total wheat crop of the year was a second high record of 735,260,970 bushels, against 692,970,489 in 1905 and the high record harvest of 748,400,000 bushels in 1901. The yield of corn per acre was 30.2 bushels, against 28.8 bushels in 1905, and only exceeded by the 30.8 bushels in 1872. Cotton did

not fare so well and, with conflicting reports of damage throughout the season, especially late in Sept. following big Southern storms. The final estimate of the Dept. of Agriculture was 12,546,000 bales, against 10,167,000 in 1905. Indicative of the notable agricultural prosperity was the Sec. of Agriculture's estimate of the farm wealth produced during the year was a new high record of \$6,794,000,000, against the best previous showing (in 1905) of \$6,309,000,000 and only \$4,717,000,000 in 1899, according to the Census figures.

Public sentiment, as regards the stock market and security investments, was largely affected by the many evidences of government, both national and state hostility toward corporations. The passing of the railroad rate regulation bill by Congress was so widely expected that when it went into effect on Aug. 28 it failed to produce a speculative ripple. The enactment of the pure food bill and the meat inspection bill, following the disclosures as to the methods used in the industries were also favorably regarded. The fining of many railroads for rebating, including the N. Y. Central in a local federal court, all exerted a distinct check upon public confidence. The disclosures as to bribe taking by officials of coal roads as a result of the investigation by the Interstate Commerce Commission was another case in point. The main attack on corporate wrongdoing was the filing of a suit to dissolve the Standard Oil Co. by the Attorney-General in Nov. This unsettled the general stock market and caused a break of about 100 points in that stock, which fell to 505 against 700 in Jan. and its highest price of 840 in 1902. Legislation in this state included the 80-cent gas bill and requiring trust companies to maintain cash reserves. In Dec. the Interstate Commerce Commission announced that it would investigate the Harriman and the Hill railroad systems.

Russian troubles had an unsettling effect abroad, particularly the dissolution of the Douma in July, which was followed by fears of a revolution and with severe breaks in prices at London, Paris and Berlin. Russian bonds at London fell to 69 against 86 in Feb. In Apr. Russia floated a \$40,000,000 4 per cent. loan, half of which was taken by France and the remainder by other European countries. The issue price was 88, but after the July and Aug. internal disorders the prices of these 4 per cent. bonds fell to 77. In Aug. Russian bonds at St. Petersburg fell to 65, or the lowest price on record. In July the United States floated a \$30,000,000 issue of 2 per cent. Panama Canal bonds, which was heavily oversubscribed and sold at an average price of 104.23. N. Y. City made a number of bond sales. In Feb. it offered the first 4 per cent. bonds in over 20 years, previous issues mainly being 3½ per cent. These brought an average price of 108.052, but another sale in July brought a price of only 100.097; one in Nov. 101.899 and one in Dec. brought 101.42.

Probably the most important N. Y. State legislation affecting finances was the enactment of nine new insurance laws, practically the same as recommended by the Armstrong Committee. These provided for the sale in five years of all life insurance company holdings of stocks, limiting the amount of new business to be written each year, forbidding participation in underwriting syndicates and forbidding campaign contributions. The N. Y. Chamber of Commerce and the Amer. Bankers Association gave decided impetus to the work of securing reform currency legislation. A joint committee of both bodies agreed upon the reforms needed and a bill was introduced in Congress. The main clauses include a plan of credit currency subject to a graduated tax, the repeal of the present limit for the retirement of government bond secured bank notes and the deposit of all government receipts, above a proper working cash balance, in the banks. A bill embracing the main clauses of the proposed issue of credit currency was reported favorably by the House Committee on Banking.

The Nov. elections had small financial effect,

although the reduced Republican Congressional majority and the victory of all but the head of the N. Y. State Democratic ticket largely offset any favorable influence exerted by the defeat of W. R. Hearst by C. E. Hughes. A feature of the autumn months was the boom in mining stocks on the curb market. This was led by Nipissing, but the boom was largely checked when the Guggenheims surrendered their option on that stock and its price broke from 34 to 12 in about a fortnight. A sale of Penn. R. R. bonds, amounting to \$50,000,000, to Paris bankers and their listing on the Bourse was an incident of note. This was the first time an American security was ever dealt in on that exchange. Big deals of the year included the merger of the Interborough and Metropolitan systems, the settlement of the fight between Amalgamated and Heinze, the lease of the Great Northern ore lands to U. S. Steel and the declaration of a big stock dividend by Great Northern as a result.

A coal strike, affecting over 500,000 anthracite workers alone, was declared April 1, but was settled early in May by the renewal of the previous three year agreement. Bituminous miners struck at the same time, and while this lasted well into the summer there were settlements at various points, mainly with an advance in wages granted. A notable feature of the year was the enormous new security issues and by far exceeding any other year. New incorporations, including only the large companies amounted to in round numbers, \$2,160,000,000, against \$1,554,000,000 a year ago. New securities issued by existing companies were \$1,319,000,000, against \$869,000,000 in the year 1905. In addition there were capitalized over \$1,000,000,000 of new mining companies. Pig iron production made a new high record for any month, or of 2,196,808 tons in Oct. Rand gold production in Oct. was also the largest for any month, or 540,609 fine ounces. Early in Dec. lake copper advanced to over 24 cents per pound, or the highest price since 1881, while silver sold at over 71 cents, or the highest in ten years.

A new high record for monthly bank clearings for the entire country was made in Jan. with a total of \$16,821,500,279. Money circulation on Dec. 1 made a new high record of \$2,869,074,255, while the per capita circulation also made a new record of \$32.68 on Nov. 1. On Dec. 1 national bank circulation was the largest on record, or \$593,380,549. Foreign trade figures made new high records both as regards total imports and exports. Mar., Oct. and Nov. imports were the largest of any months on record, or \$113,625,066, against \$110,431,188 in March, 1905, or the previous high record. Oct. merchandise exports were the second largest for any month, or \$187,338,283, and only exceeded by Dec., 1905, total of \$199,709,068. Practically all the big railroads reported the best earnings in their history, while U. S. Steel, for the first nine months of the year, reported net profits of \$114,874,000, against \$84,571,000 in 1905.

## FINANCIAL REVIEW OF THE YEAR 1906—Continued.

**Brooklyn Securities, 1906.**

The market for securities in 1906 was not an active one. In fact, conditions were such that brokers all the year complained of the lack of demand for stocks and bonds of Brooklyn corporations. At no time was any activity shown, and the feature of the market under such conditions was the manner in which prices held up. Only at the end of the year did any decline take place, and the easing off was by no means important.

The money market during the year was firm throughout. There was a good demand for money and while the banks and trust companies at times had surplus funds on hand there was nothing to complain of on their part in respect to interest rates during the year. In fact, it was the firm money market that gave the banks the profitable year they have had, as conditions in the stock market were not entirely favorable and the investments of these institutions did not show much appreciation. The high rates for call money which prevailed almost throughout the year in Manhattan was another factor which added to the profits of some of the local institutions.

There was little feature during the year. All of the local corporations reported a prosperous period. According to the reports of the banking institutions of the borough, made in the middle of November, there has been general expansion on the part of all institutions. The reports of several of the more important banks, like the Union, the Mechanics and the Manufacturers' Nat., as well as the big trust companies, the Brooklyn, the Hamilton and the Franklin, show that the year had been a decidedly good one.

The local banking world as far as deals was concerned was not so active in 1906 as it was in the year previous. Last year there were only four deals put through and the Union Bank figured in three of them. The first was the absorption of the Ridgewood Bank by the Jenkins Trust Co. The second was the buying of the Peoples Bank by the Union Bank and the third and fourth were the merging of the Dealers Bank into the buying of the Market Branch of the Peoples Trust Co. by the Union. There were only three bank organizations during the year and of them were savings banks. One new state bank, the Montauk, is at present in course of organization.

In the banking world there were only two capital increases. One was by the Union Bank, the capital of which was increased from \$500,000 to \$1,000,000, and the other was by the Franklin Trust Company, which increased its capital from \$1,000,000 to \$1,500,000. Among the banks and trust companies there were eight increases in dividends, three initial payments and one extra dividend. The institutions making their first disbursement were the Borough Bank and the Jenkins Trust Co. and the Home Trust Co. The increases were made by the Union Bank, the Broadway Bank, the Franklin Trust Co., the Brooklyn Trust Co., the Long Island Loan and Trust Co., the Mechanics Bank, the Nassau National Bank and the Flatbush Trust Co. The extra dividend was paid by the Nassau Trust Co.

The Brooklyn Rapid Transit Co. for the year ending June 30, 1906, reported record earnings, the year being the best in the history of the company. The management of the road is rapidly putting it into the best of shape physically, but despite loud talk of dividends last year the outlook for immediate payments is not promising. There have been estimates of earnings for 1907 which place them above the \$19,000,000 mark, but even this will have to be improved upon before dividends are in sight.

The trouble over the Coney Island fare was a severe blow to the earnings of the company last year, as the fares lost as well as the legal expenses, which are still running, will be a big item when the earnings are counted up. The terminal improvements and completion of the new power houses were the features of the company's year. Many new cars were added to the equipment last year and the service was improved as much as possible in all directions. Nothing regarding the earnings of the Brook-

lyn Union Gas Co. was given out during the year, as that company never makes public its statements. During the year, however, the dividend of the corporation was twice reduced, the last action wiping out payments altogether. The first reduction came in May, when there was a cut from 8 per cent. to half of that figure, and the second was in Aug., when the 4 per cent. rate was passed. The action was laid to the fact that the company was compelled to sell gas at 80 cents per thousand feet and the contention of the officials was that it could not make money at that figure. The question is at present before the courts, but it is likely to be a long time before any definite results will be reached.

Another big local corporation, the Realty Associates, reported a very good year for the period ended Oct. 31, last. Earnings showed a big increase, as did the operations of the company in the real estate line. The continued boom in the realty markets throughout the year was a factor in the company's big profits.

The local surety companies all had a prosperous year. The People's, the Empire State and the Metropolitan all reporting good gains in earnings.

There were many dividend changes during the year. They included, outside those noted above, an initial dividend at the rate of 6 per cent. on the stock of the People's Surety Co., an initial dividend at the rate of 8 per cent. on the stock of the Metropolitan Surety Co., an advance in the dividend of the New York Dock Co. preferred stock to 5 per cent., an initial dividend on the stock of the new Montauk Theater Co. at the rate of 6 per cent., and the defaulting of the interest on the 5 per cent. bonds of the Brooklyn Ferry Company.

The capital increases outside of the ones made by the Franklin Trust Co. and the Union Bank included an increase of \$50,000 in the stock of the Phenix Insurance Co., and an increase of \$250,000 in the capital of the Empire State Surety Co. The Kings County Electric Light & Power Co. also sold \$1,800,000 of stock. Brooklyn City Railroad sold \$6,925,000 of 4 per cent. bonds, and the New York & New Jersey Telephone Co. issued \$1,700,000 of new stock.

The following table gives the last bid and asked prices, the amount outstanding and the interest or dividend rate of the leading local securities, Dec. 29, 1906:

## Mount Vesuvius Eruption.

Preceding the San Francisco earthquake occurred a notable eruption of Mt. Vesuvius, Italy, reaching its climax April 9, 1906, and destroying many mountain towns and upward of 500 lives. The devastated district included San Giuseppe, 6,000 inhabitants; Ottolano, 4,100; Somma Vesuviana, San Giorgio, Cremona, Portici, Resina and Torre del Greco. Of the 32,000 inhabitants of Torre dell'Annunziata on the coast of the bay of Naples only 2,000 remained in the threatened city. April 10 the entire south of Italy was enveloped in darkness by ash clouds and falling ashes. 200 lives were lost by the crushing in of the roof of Monte Oliveto Market, in the center of Naples. The eruption quieted down April 13, the loss of property being estimated at \$20,000,000 and the number of persons rendered homeless at 50,000.

## Transporter Bridge.

The first transporter bridge in Wales was opened at Newport in Sept., 1906. It is a suspended ferry, was patented by the French engineer, M. Arnodin, and is intended for use on navigable rivers. The first was built at Rouen across the Seine, and there is one at Manchester, England. The Newport has a span of 645 feet, headway from high water 177 feet. A traveling truck, 104 feet long, electrically lighted and propelled, 30 suspension cables, with total length of 1,620 yards and a breaking load of 550 tons, sustains a load of 120 tons. Occupied four years in building, and cost \$365,000.

June 30, 1906, there was 3,390 miles of railways and 126 miles of tramways in New South Wales, Australia; 37,500,531 passengers were carried by the former, and 145,262,779 by the latter.

## First Steam Locomotive.

The first locomotive built in America was begun by Peter Cooper in New York City in 1825, and August 23, 1830, was the first record movement of passengers by steam on rails, a distance of 13 miles over the Baltimore and Ohio Railroad to Ellicott City. Time, one hour and twelve minutes. May 17, 1828, a steam locomotive arrived from England to be used on a tramway for transportation of coal by the Delaware and Hudson Coal Company, from Carbondale to Honesdale, at the head of canal, with egress to the North River. It was one of an order for three of English build, only two of which came and both proved elephants. One was called the Lion, the other the America. The "Angora," countermanded, is still intact in the South Kensington Museum, London.

## UNITED STATES REVENUE CUTTER SERVICE.

The Revenue Cutter Service was founded by Alexander Hamilton in 1790, several years prior to the establishment of the regular Navy. It is under the Treasury Department. It enforces the navigation, customs, quarantine and neutrality laws of the United States. Its vessels patrol the coasts in winter and lend aid to vessels in distress. In war the service becomes a part of the naval establishment. Its officers are on an equal footing, in rank and pay, with officers of the Army and Navy. Appointments to cadetships are made after competitive examinations conducted by boards of commissioned officers of the Revenue Cutter Service. Cadets are educated at the School of Instruction at South Baltimore, Md. The course covers three years and embraces professional and academic subjects. Candidates for cadetships must be not less than 18, nor more than 24 years of age, citizens of the United States and unmarried. A class of about 15 cadets is appointed each year.

Engineer officers are appointed direct from civil life, and the vacancies are open to those who have received a technical training in engineering. Successful candidates serve for 6 months as cadet-engineer before being commissioned. The age limits for the engineer corps are 21 to 26 years. This branch of the government is under the charge of a captain detailed by the Sec. of the Treasury as Chief of Division of Revenue Cutter Service. Captain Worth G. Ross is the present incumbent. Headquarters are at the Treasury Department, Washington, D. C. Following is a list of vessels in the service, their class, guns and stations:

In the Service are 218 commissioned officers and cadets on the active list, and 1,250 petty officers and enlisted men. The officers are: 37 captains; 37 1st lieutenants; 37 2d lieutenants; 10 3d lieutenants; 26 cadets of the line; 34 chief engineers; 17 1st assistant engineers; 15 2d assistant engineers; 2 cadet engineers; 2 constructors and 1 surgeon.

## United States Life Saving Service.

The number of disasters to documented vessels within scope of the Service was 365 for the fiscal year ending June 30, 1906. On board these vessels were 4,089 persons, of whom 27 were lost. Estimated value of vessels was \$7,735,300, and their cargoes \$2,585,360, making total value of property involved \$10,320,660. Of this amount \$7,917,385 was saved and \$2,403,275 lost. Number of vessels totally lost was 63. In addition there were 420 casualties to undocumented craft—sailboats, rowboats, etc.—carrying 955 persons, 10 of whom perished. The value of the property involved in these instances is estimated at \$264,650, of which \$258,025 was saved and \$6,625 lost.

The results of disasters to vessels of all descriptions within the scope of the service, therefore, aggregate as follows:

Total number of disasters.....	785
Total value of property involved.....	\$10,585,350
Total value of property saved.....	\$8,175,410
Total value of property lost.....	\$2,409,940
Total number of persons involved.....	5,044
Total number of persons lost.....	37
Total number of shipwrecked persons succored at stations.....	634
Total number of days' succor afforded.....	9,510
Number of vessels totally lost.....	63

The foregoing summary does not include 107 persons not on board the vessels who were rescued from various positions of peril. The life-saving crews saved and assisted in saving 465 imperiled vessels, valued with their cargoes at \$4,268,500. Of this number 359, valued with their cargoes at \$634,715, were saved without other assistance. In the remaining instances, 106 in number, the life-saving crews co-operated with wrecking vessels, tug and other agencies in saving property, estimated at \$3,535,990, out of a total of \$3,633,785 imperiled. Beside this the crews afforded assistance of greater or less importance to 676 other vessels, rendering aid altogether to 1,141 vessels of all kinds. This number is exclusive of 171 instances in which vessels running into danger were warned off by station patrolmen.

## PENSIONS OF THE SEVERAL WARS AND OF THE PEACE ESTABLISHMENT.

These amounts have been paid to soldiers, sailors and marines, their widows, minor children and dependents, on account of military and naval service in the wars of the United States and during time of peace:

War of the Revolution (est.)	\$70,000,000.00
War of 1812 (service, without regard to disability)	45,542,069.24
Indian wars (service, without regard to disability)	8,260,143.38
War with Mexico (service, without regard to disability)	38,059,245.22
War of the rebellion	3,259,195,306.60

## POLITICAL SITUATION AND PLATFORMS, NEW YORK STATE, 1906.

The 1906 campaign for Governor of New York State was exciting. The Independence League Convention was held in Carnegie Hall, New York City, on Sept. 11. W. R. Hearst and L. S. Chanler were nominated for Gov. and Lieut.-Gov., and a full state ticket was also named. The Republican State Convention was held at Saratoga on Sept. 25 and Charles E. Hughes and M. Linn Bruce were nominated for Gov. and Lieut.-Gov. The Democratic State Convention was held at Buffalo on Sept. 25, where, after three days of debate and agitation, W. R. Hearst and L. S. Chanler were nominated. A state ticket was also named and eventually the Independence League's candidates for the minor places withdrew and the Democratic candidates were named.

The platforms follow:

### Republican.

Assembled as delegates to the Republican State Convention, we gladly record our pride and confidence in President Roosevelt. We indorse what he has done in fulfilling the will of the people, in protecting both labor and capital; in preventing unfair discrimination in railway rates; in reforming the abuses of trust corporations; in providing for the speedy construction of the Panama Canal; in securing pure food laws and uniform naturalization laws; and also in elevating the standard of the public service. In these splendid achievements he has had the hearty co-operation and assistance of a loyal Republican Congress. We congratulate him and the world in what he did for peace between Russia and Japan, and upon what he is now doing to compel peace in Cuba. He has fought the battles of the plain people so courageously and successfully that his name is an inspiration in every state campaign and his record the platform upon which every good citizen is willing to stand. We pledge the Republican party in New York State to follow faithfully in his footsteps.

Governor Higgins has kept the pledges made before his election. We heartily commend his courage and fidelity to every duty. His administration passes into history as one of the great administrations of New York.

The recent insurance investigation was conducted under Republican auspices. It was thorough and effective. Unworthy officials were driven from power and laws have been enacted to secure the protection of policyholders against long existing and widespread abuses. We pledge the faithful enforcement of these laws and their further amendment whenever necessary.

We approve the Republican legislation preventing corporations from making political contributions, from crowding our legislative halls with lobbyists and from exercising corrupt and sinister influence in framing our statutes.

We congratulate the people that the direct state tax has been abolished and that the fiscal year closes with a working balance in the State treasury of more than ten million dollars. While no system of taxation will ever be accepted by all as perfect, we believe that the tax commission authorized by the last Legislature will submit effective plans to adjust the burdens of taxation more equally upon broad and practical lines.

Appreciating the constant needs of the State for higher and broader educational opportunities, for the equitable levying of taxes, for the better care of the inmates of our charitable and penal institutions and for the improvement of our highways and waterways, we pledge to the people a continuance of these good works on lines of honesty, energy and the strictest economy.

We approve the legislation granting a substantial reduction in the price of gas to the people of New York City and providing for a commission to prevent the over-capitalization and excessive charges of public lighting corporations and we favor the extension of this policy to the regulation of all public utility corporations.

We believe in an honest ballot and a fair count. Every law upon our statute books for the purity of the ballot has been enacted by

the Republican party. We indorse the laws enacted by our last Legislature against corrupt practices at elections and pledge our party to their strict enforcement and to strengthen them if experience demonstrates the necessity. We mean to have and compel honesty at the primaries and in the general elections.

We renew the pledges to the people given by the previous Republican state conventions, insisting upon the preservation intact of the state forest preserve and its extension as far as may be necessary to conserve in their integrity for the benefit of the whole people of the state, lands and undeveloped water powers which should not be surrendered to the control of private interests.

In national affairs we reaffirm our belief in the wisdom of the protective tariff under which the country has achieved unparalleled prosperity, and we demand that its revision, as occasion may require, be intrusted to its friends and not to its enemies.

We strongly favor legislation for the restoration of an American merchant marine, so that the hundreds of millions now paid to foreign shipping interests may be paid to our own people; so that our foreign commerce may be strengthened and enlarged, and so that we may have an invaluable reserve power of ships and men in case of war.

We heartily indorse the advanced stand taken by President Roosevelt in his application of the eight hour law.

We are opposed to that inequality which permits one-twelfth of the voters of the United States to wield one-quarter of the national legislative power, through the suppression of the right of franchise and we favor the enactment of laws which will reduce in just proportion representation in Congress and the electoral college wherever the ballot is suppressed.

Realizing the national dangers arising from the alarming growth of mob barbarities, engendered by race hatred in our own land, we demand the prompt and adequate punishment of mob instigators and leaders, and we insist upon the just and equal protection of the civil and political rights of all our citizens without regard to race, creed or color. We also place upon record our sincerest sympathy with the suffering and outraged Jews in Poland and Russia.

In the midst of the most prosperous year in the history of the country, a prosperity which signals the semi-centennial of Republican ascendancy in the nation, we do not believe that our people will change the political control of the State and nation. We do not believe that our people will follow those who would rashly experiment with socialistic theories to the serious danger of the public welfare. No party can be safely trusted now that follows the leadership of men who advocate the governmental ownership of transcontinental lines of railroads, who would place more than a million and a quarter of railroad employees under political and partisan control, who would add more than ten billions of dollars to the national debt in their rash and fatal experiment.

What the Republican party has done is the surest pledge of what the Republican party will do in this crisis in the State and nation. Helped by loyal Democrats, we saved our Union and the nation in the Civil War. Helped by hard money Democrats, we resumed specie payments. Helped by patriotic Democrats, we killed the heresy of the free and unlimited coinage of silver at the ratio of 16 to 1. We now appeal confidently to the loyal and patriotic citizens of all parties to stand with us to-day for the just protection of labor and for the effective regulation and control of corporations and against the ownership of great railway systems by either federal or state governments.

Renewing our pledges made in the national Republican platform and the state platform of 1904, we ask the support of all the people for the candidates of this convention and for Republican candidates for the Legislature and

## POLITICAL PLATFORMS—Continued.

Congress, and we pledge to the people in return a faithful fulfillment by the Republican party of the promises we make to-day.

**Democratic.**

The Democracy of New York, in state convention assembled, reaffirms its attachment to the fundamental democratic principles on which this representative of liberty and law has rested in complete security and unparalleled prosperity for a century and a quarter. At this time, when the authority of democracy is invoked to defend plunder of the masses by a few rich men, through partial laws on one hand and on the other to justify many extravagant and revolutionary proposals, which if adopted must inevitably produce worse disasters than the abuses they seek to cure, we deem it eminently fitting to declare that the whole democratic principle is embraced in the injunction laid on the first man, that in the sweat of their brows he and all his posterity must eat their bread. Democracy we hold is but the application of this principle to political institutions through the organization of government, for the sole purpose of assuring every man the right to eat undisturbed all the bread produced in the sweat of his brow, of peaceable possession of everything created by his labor and of preventing any man from eating one crumb produced in the sweat of another man's brow, from seizing a single thing produced by the labor of another man's hands.

We affirm that all the evils which affect the body politic to-day flow directly from violations of this fundamental principle. Exactions of great combinations or trusts, under cover of high protective tariffs, excessive rates exacted by corporations operating public franchises, plunder of policy holders by officers of insurance companies, and stockholders by managers of industrial corporations, corruption in public office by which revenues of government are diverted from the service of the people to the pockets of their servants and the source of justice polluted, are all schemes of some men to eat their bread in the sweat of other men's brows by diverting property from hands that create it to hands that covet it.

We affirm it to be as much the supreme duty of government to prevent any man from taking by violence, fraudulent device or legislative favor one dollar or its equivalent produced by the labor of another man, as it is to protect every man in the enjoyment of all the property, however extensive, produced by his own labor. We therefore denounce Republican high protection, which enables a few men to plunder the whole body of their fellow citizens by charging extortionate prices for the necessities of life and the essentials of industry.

Where the plunder of the people, or any part of them, is perpetrated in violation of law we denounce the incapacity or corruption of all officers who encourage, aid or tolerate it, and especially the imbecility or connivance of prosecuting officers who permit the perpetrators to go unwhipped or even unchallenged of justice. While we believe favoritism in any department of government must always be a prolific source of oppression and wrong, we hold favoritism, partiality or corruption in the administration of criminal law to be utterly subversive of all government.

We denounce the gross partiality which punishes minor offenses with unparing severity, while ignoring the commission of enormous crimes, and we demand the immediate prosecution of every man, whatever his position, or however extensive his fortune, who has been shown to have misappropriated one dollar intrusted to him from the economies of the poor.

We believe the operation of all banks, trust companies and public service corporations should be placed under close and constant scrutiny of vigilant public officers, and we demand the enactment of laws placing the officers of such companies under stricter responsibility for corruption or neglect in the discharge of their duties.

If impartial prosecution of all offenders cause congestion of business in the criminal courts we demand that perpetrators of the most extensive robberies be given precedence on the

road to prison. We declare as the most sinister consequence of the corruption and graft which degrade our political and industrial life the widespread distrust and discredit of republican government which they have produced and which have led many men of undoubted probity and ardent patriotism to listen patiently, if not approvingly, to proposals distinctly socialistic, which, if adopted, must inevitably wreck the foundation of republican government and endanger the entire fabric of Christian civilization.

We hold that the cure for all these abuses is not in Socialism, which by enormously extending the power of government must aggravate them, but in Democracy, which by excluding government from any interference whatever with private industry, must cure them. While we hold it to be a vital principle of Democracy that any interference by government in the field of private industry must be vicious, a source of corruption and a bar to prosperity, it is equally a vital Democratic principle that within its proper field the authority of government is absolute, and its power should be enforced with unflinching vigor, but always with strict impartiality. And we believe the whole field of public service is included in the domain of its legitimate authority.

We hold every enterprise to be a feature of the public service which necessarily exercises in the course of its operation any power of sovereignty, such as the power of eminent domain, and therefore it must always be subject to control and regulation by government. Railways, telegraphs, telephones, the supply of gas and electricity and every enterprise that may use public property or take private property without the consent of the owner are essentially public functions, although the administration of them is committed to corporation organized and operated by owners of the private capital embarked in them. And when thus administered these corporations are themselves agencies of government and therefore always subject to its control.

Where the operation of a public franchise is intrusted to a private agency we believe the community entitled to service of the very highest efficiency consistent with the safety of the capital employed in it. We hold it to be the duty of government, while maintaining absolute security of such property to exact for the people efficient service at reasonable rates, and a reasonable rate, we believe, is the actual cost in every instance of the service plus a reasonable profit to the corporation rendering it.

Whether a public utility be administered by government itself or by a private corporation, we hold that every person who uses it must be held to pay the cost of the service which he receives, and that no man should be compelled by taxation or otherwise to bear any part of his neighbor's expenses for light or power, for telephone service or for transportation of himself or of his goods.

Every proposal that a municipality assume operation of all public utilities and reduce rates to persons using them, regardless of what the service may actually cost, is an attempt to force some men to bear the expenses of others, because where the outlay for operation exceeds earnings the deficit must be made up by taxation, and this would be socialistic and therefore hostile to justice and subversive of democratic government.

What government can empower an agent to do it has manifestly the right to do through its own officers. Whether it should discharge a function itself or employ a private agency to discharge it depends solely upon which can render better service, and this question of fact should be decided in every instance by the people of the locality in which the franchise is operated.

It is the duty of government, therefore, to ascertain the actual cost of operating all public service corporations, and to fix from time to time reasonable rates for the service they perform, so that the community will always

## POLITICAL PLATFORMS—Continued

be admitted to a share in all benefits flowing from economies and improvements in administration. And this we demand for the protection alike of the corporations and the people whose franchises they operate, of stockholders whose capital is invested in these enterprises, and of the community for whose benefit they are chartered.

We denounce as a crime against morals and decency the refusal of the Republican administration to permit an investigation of the different departments of the state government, especially of the banking department, upon the avowed ground that such investigation would show corruption so gross as to endanger party success and result in the discredit, disgrace and possible imprisonment of men prominent in high finance, as well as their plant tools in public office. Such confession is conclusive evidence of the necessity for the investigation. A desire for secrecy as to the administration of any office is consistent only with a purpose to conceal corruption.

If intrusted with the administration of the state government we promise that there shall be an impartial and public investigation of every department of the state, that abuses may be discovered, errors corrected and those responsible for offenses of administration justly and fearlessly prosecuted.

The recent investigation of insurance companies manifestly affords but a faint idea of the gross and sordid corruption which has governed their administration for a long period. It is a scandal of unparalleled dimensions that these shocking exposures have resulted merely in the discharge of a few officers whose inefficiency for plunder was established by the fact that they had allowed their enormities to be discovered, while the more desperate culprits who were most adroit in plotting their villainies and who profited by them most extensively, have been allowed to remain in control of the vast trust funds that they have pillaged and wasted. We demand the passage of such legislation as will deal effectively with the whole subject of life insurance and encourage this form of economy by making its fruits absolutely secure. We are resolved, above all, that every rogue who has aided in planning this plunder, who has connived at it or shared in its profits shall be pursued by every punitive weapon of the law, wielded by honest, fearless, loyal public prosecutors.

The eight hour law, with the prevailing rate of wages and all other statutes enacted in the interest of labor, should be as strictly enforced as those intended for the protection and security of capital.

We favor the extension, so far as practicable, of the eight-hour law (by the three-platoon system, or such other means as may be effective) to the uniformed police force, charged with the important task of maintaining peace in the various cities of the state; and to secure the members from improper influences we believe that in case of dismissal the courts should be empowered to review the proceedings in every instance.

The teachers in our common schools, engaged in preparing the youth of the state to bear the burdens, discharge the duties and meet the responsibilities of citizenship, are exercising the most important function in the whole scope of our public service. On their fidelity, capacity and ability mainly rest our prospects of future growth in morals and intelligence—the true fountains of all prosperity. We believe, therefore, that these most valuable public servants should be insured a reasonable certainty in the tenure of their offices, while their compensation should be sufficient to maintain them in comfort during their years of labor and enable them to make suitable provision for their declining years.

The unscientific method of assessment, equalization and taxation now in force throughout the state is productive of the most unjust and unfair discriminations, and we pledge ourselves, if given official authority in the legislative and executive departments of govern-

ment, to frame and enact such legislation as shall lead to uniform and just taxation.

The laws recently passed in restraint of corrupt practices at elections are in line with the Democratic platform of 1904, and were enacted through the hearty support of Democratic legislatures. We call for amendments requiring the free and complete publication of election expenses, specifying the purposes for which each dollar was spent and to whom paid.

The people having authorized the expenditure of \$101,000,000 in the construction of a barge canal, we believe this enterprise should be vigorously prosecuted and completed in a businesslike manner, that the state may obtain the benefit of this vast expenditure as soon as possible. And we condemn the vicious Republican practice of granting contracts to political favorites in such parcels as will extend the work over an unlimited period of time and permit the employment of numerous party satellites in supervision and inspection, thus converting these funds into partisan plunder.

There is no purpose to which the funds of the state can be more wisely devoted than to the construction of improved rural highways. The present method is unscientific and inadequate. Instead of improving unrelated, detached sections of highways, the state should supplement the existing system by constructing improved state highways which will provide continuous connection between important centers.

We favor the protection by the state of the forest lands of the Adirondack and Catskill parks, the immediate acquisition of all lands within the natural park areas and such legislation as will at once stop the predatory destruction of timber upon the state lands too long connived at by state officials.

The great falls of Niagara should be held sacred from commercial greed. Its scenic beauty must be preserved in all its natural grandeur as the chief artistic possession of humanity.

We believe the state should exact universal maintenance of peace and observance of order. Within these limitations we hold every citizen has the right to occupy his leisure and pursue his amusement without any vexatious or intrusive restraint upon his personal liberty.

We ask the federal government to exercise its influence to bring about speedy cessation of the atrocities now being committed against the Jews in Russia, which have shocked the conscience of civilization.

We favor the election of United States senators by direct vote of the people, and pending the adoption of an amendment to the Federal Constitution the enactment of state legislation providing for their direct nominations by popular vote.

In common with the Democrats of all the states and expressing the sentiments of the high minded citizenship of the republic without reference to party, we view with pride and satisfaction the hospitality and acclaim which have been accorded at home and abroad to that great Democratic leader and typical American, William Jennings Bryan, to whom the Democrats of New York extend most cordial and sincere felicitations.

Finally, we record our solemn belief that corruption in the public service or in corporate management cannot be eradicated while schemes of plunder are implanted in the very body of the law itself. Where the law not only permits but empowers great trusts to exact for their products from the people of this country prices vastly exceeding those asked in foreign countries, and this power to plunder our citizens is treated as the property of certain private corporations, openly capitalized for billions of dollars, the vast volume of tribute drawn from the masses of the community is the least pernicious of its results.

The wide emulation in plunder which it evokes is its worst result. Every successful scheme of spoliation breeds a thousand imitations. Where a few men are empowered to despoil their fellow citizens, under protection of the law, many men soon devise innumerable

## POLITICAL PLATFORMS—Continued

schemes to despoil them outside the law. From the plunder of billions, levied on the whole community through manipulating the statute books, to plundering stockholders and policyholders of millions through manipulating books of account, the step is short and inevitable. The law, when it denounces minor robberies as crimes, is discredited and enfeebled by the greater robbery which it permits.

The spectacle of government taking from masses of men some of the profits created by their labor to enrich a few favorites encourage the Socialists to insist that government should monopolize the entire field of industry and divide all of its profits among the whole people. And thus those enormous fortunes enjoyed by beneficiaries of socialistic high protection have stimulated a demand for an extension of Socialism into new fields.

We denounce the Socialism which seeks to make government the sole agent of production as nothing less than a proposal to re-establish the institution of tyranny and industrial slavery which perished before the advance of Christian civilization. For the very essence of despotism is to vest in the state absolute control of all industries, and therefore ownership of its products; while the essence of Democracy is to confirm in every man the right to dispose of his own labor and possess in peace everything produced by it. We hold it to be self-evident that if government assume the whole control of production it would be its right and its duty to compel all men to work for its enrichment, as it is its right and duty now to compel all men to fight for its defence; and enforced labor—whether it be enforced by government or by individuals—is servitude.

Realizing every socialistic proposal—however disguised under sonorous and misleading phrases—to be a step leading inevitably toward the re-establishment of despotism in government and servitude in labor, the Democratic party must always be vigilant in unmasking it and inflexible in opposing it.

In this opposition we ask the co-operation and support of all citizens who feel that the issue now before the country is no mere struggle for office or for advantage between political parties, but a contest for the existence of Christian civilization and of democratic government, its last and most valuable fruit.

**Independence League.**

The Independence League submits to Jeffersonian Democrats and Lincoln Republicans this statement of its beliefs and purposes:

The fundamental idea of the Independence League is Independence; Independence of boss rule, Independence of corporation control and Independence of any party subject to boss rule and corporation control.

A man who is not independent in life, in thought and at the polls is not an American citizen of the type hoped for by the founders of this country.

Without a free vote and an honest count there can be no liberty, no reform of abuses, no progress toward the supremacy of public over special interests.

A conspiracy to defeat the will of the majority at the polls in the City of New York has aroused national attention and challenged the voters of this state to meet a condition which cannot be tolerated if they are to enjoy the rights of self-government.

A demand for justice was made upon the courts, the Legislature and the Attorney General, only to be met with refusal. The whole machinery of the law was invoked and failed to secure to the citizen his primary right to have his vote counted as cast.

Thus has been raised an issue upon the right decision of which depends the preservation of the fundamental principles of American government.

The Independence League demands a revision of the present dishonest and complex election law a simplified ballot and a law providing for a recount in cases of fraud and mistake in terms so plain and mandatory that they

can neither be disregarded nor circumvented in the courts.

Hand in hand with this reform should go a measure stripping the Attorney General of discretionary power in quo warranto proceedings to test the title to an office in dispute, and measures facilitating independent nominations, providing for the selection by popular vote of candidates for the United States Senate, an effective corrupt practices act and provision for direct nominations.

The security of the public, of children, of widows and of old age depend upon honest life insurance and a safe banking system.

The insurance scandals that disgrace our state are directly due to an incompetent and often corrupt Insurance Department, which for years has been the spoil of machine politics.

We condemn Governor Higgins for failing to recognize this department and we demand that it be cleaned out, root and branch.

Should the present discredited management of the insurance companies maintain control through the connivance of the Insurance Department in underhanded and illegal campaigning, we favor a new election, under safeguards that will insure freedom of choice to the policy holders.

The criminal wrecking of banks and trust companies throughout the country fills the people with indignation and dread. In our own state the wrecking of the German Bank of Buffalo, the Merchants' Trust Company, the Federal Bank of New York and the New York Building Loan Association are fresh in the public mind. These abuses of trust have been carried on under Superintendent Kilburn, who has represented, not the people with money deposited, but the criminal financiers juggling with these deposits.

Charges against Kilburn were dismissed by Governor Higgins without a hearing, and a legislative investigation was killed by his influence. We demand a cleaning out of this department and the appointment as superintendent of a competent and experienced man of established integrity.

We advocate legislation that will increase both the civil and criminal responsibility of directors of banks, trust companies, building and loan associations and public service corporations, not only for malfeasance in office, but for neglect in office.

We denounce the present administration of the Franchise Tax law, under which the great public service corporations evade full taxation, and we pledge ourselves to administer that law through a fair and faithful tax commission that every public service corporation shall pay taxes upon the full value of its franchise.

The railroads are subject to public control, yet they treat with contempt the rights of the people in city and country alike. The farmers of the country, who develop its fundamental wealth and feed its entire population, have created the vast railway fortunes. These farmers are taxed by the railroads to the last penny, as no autocratic government would dare to tax.

The R. R. Commission is the creature of a governor who is the creature of the corporations. That commission ignores deliberate violation of law, blocks improvements demanded by the public, and tolerates such brutal and criminal mismanagement as that of the B. R. T. Co. We demand its complete reorganization.

A searching investigation of every department is due the public. We repudiate the claim of Gov. Higgins that the Legislature has no constitutional right to investigate the executive departments.

The administration of the great office of Attorney General has been distinguished by scandalous failure to enforce the election laws, by refusal to act against the Ryan-Belmont traction merger, by failure to prosecute vigorously suits to recover insurance funds looted from policyholders, and, as a fitting climax, by refusal to permit the honesty and fairness of an election to be tested in the courts.

## POLITICAL PLATFORMS—Continued

Impartial enforcement of the laws of paramount importance. The administration of law controlled by corporation influence has been illustrated in the case of District Attorney Jerome, as well as in the case of Attorney General Mayer.

We express the disgust felt by all good citizens over the failure of District Attorney Jerome to prosecute criminally, regardless of their wealth or social position, those guilty of insurance frauds.

The Independence League believes in the public ownership of public utilities that are natural monopolies. It stands neither for private confiscation of public property nor public confiscation of private property. It believes in upholding and enforcing every property right. Holding that no person or corporation is privileged to confiscate what rightfully belongs to another, it stands for irreconcilable hostility to appropriation by corporations of franchise values erected by the community and belonging to the community.

The first essentials for public ownership are honesty in office and independence in voting. The application of the principle of public ownership thus becomes a matter for each community to settle for itself. Respect for local rights and home rule should authorize the enactment of a statute empowering all cities to acquire and operate public necessities, such as gas and electric lighting plants, transportation lines and telephones, the same as water works, whenever such cities by a majority vote favor such a course.

Farmers, who have contributed most to this nation, have received less consideration at the hands of government and of corporations than any other great body of producers. Laws strictly enforced should help secure to the farmer the actual value of his products. This involves reasonable railroad rates and the destruction of such organizations as the Milk Trust, that stand between the farmer and the consumer, taking the lion's share of the profits.

We pledge our efforts to bring about equitable freight rates, to destroy rebates and discrimination and to enact and enforce a maximum passenger rate of 2 cents a mile, applicable to every railroad in the State.

Appreciating the importance to the whole State, and particularly to the farmers, of the development of a system of good roads, we favor a vigorous extension of this policy.

The principle of the eight hour day is an accepted feature of economic life in America. Government—national, State and local—should set a good example as an employer. The eight hour day, with the prevailing rate of wages, as provided by law, should be strictly enforced in public contracts and in public work, and the child labor law, the compulsory education law, the act relating to contract prison labor, together with the laws requiring sanitary inspection of all mines, tunnels, workshops and dwellings, should receive the unremitting attention of the officials charged with their enforcement.

The three platoon system should be restored to the policemen of Greater New York, and the benefits of the system extended to all other cities in the State. The same right of appeal should be accorded the patrolmen of all the cities of the State now effective in the cities of New York and Buffalo. Accompanying this reform, the hours of firemen should be lessened and the condition of the underpaid, ill treated street cleaning force in Greater New York improved.

The Independence League demands the enforcement of the pure food law, liberal appropriations for educational purposes, adequate salaries and a pension system for teachers, suitable accommodation for all children in the public schools and an end to the annual scandal of turning thousands of children into the streets for lack of proper school provision for them.

Honesty in public service, the rule of the majority, equality before the law, regard for the welfare of the whole people, independence in politics, opportunity in business, freedom of the government from the grip of corporation

control—these are the principles for which the Independence League is prepared to battle.

In support of these principles we ask the co-operation of all patriotic citizens and of all political organizations in sympathy with their practical enforcement in the government of the State of New York.

**The Imperial Chinese Commission.**

The Imperial Chinese Commission (\$2 in number), headed by Tai Hung Chi, Asst. Sec. of the Imperial Treasury, and Tuang Fong, Viceroy of Fukien, and Chi-kiang, charged with the study of industrial and social conditions in the United States, preliminary to the formation of a new Chinese Constitution, arrived in N. Y. City on the morning of Feb. 1, 1906. The party was met by J. B. Reynolds, representing Gov. Higgins, at the ferry house (23d St.), escorted to the Fifth Avenue Hotel, where met by Gen. F. D. Grant and Staff; then by a committee from the Chamber of Commerce, consisting of Robt. C. Ogden, Wm. Jay Schieleff, Wm. Dulles, Jr., C. N. Bliss, W. H. Van Steenberg, Eben E. Olcott and J. W. Pearsall. The party then visited Wall St., the International Banking Corporation, the Stock Exchange and the Chamber of Commerce. Feb. 2 they visited the American Tobacco Exchange, Governors Island, the Subway, and in the evening attended a dinner banquet at the Waldorf-Astoria, at which 700 covers were laid. J. W. Foster presided; Rev. A. G. Brown delivered an address of welcome; responded to by both high Chinese Commissioners. Addresses followed by M. K. Jesup, Bishop Greer, Pres. Butler of Columbia and the Revs. Dr. M. H. Hutton and F. D. Gamewell, former missionaries in China. The speaking was closed by Sir Chetung Liang-Cheng, the Chinese Minister. After visiting Grant's Tomb, West Point, a side trip to Philadelphia, Wells College, Elmira, Cornell University, Niagara Falls, and spending three days in Boston, the party, after touring the West, sailed for home. A second Chinese Commission of 22, en route for England, France and Belgium, to study political conditions there, arrived in N. Y. City March 6.

**Behring Strait Tunnel.**

The Trans-Alaska Siberian Railroad Co. was organized Oct. 24, 1906, in New Jersey, with \$6,000,000 capital, to carry out the scheme of Loloq De Lobel, of Paris, France, for the construction of an inter-continental railway under Behring Strait. Incorporators: Loloq De Lobel; J. A. L. Waddell, Kansas City, Mo.; John J. Healy, Seattle; Wm. H. Black, New York, and J. R. Turner, New Jersey. The line as proposed has a total length of 3,750 miles, exclusive of over 2,000 miles of branches and is planned to start from Kouak, a station on the present Trans-Siberian Railway. After passing through a tunnel under Behring Strait, the plan calls for a line traversing Alaska, passing through Grently Harbor and Council City.

**Apple Crop of United States.**

According to the American Agriculturist's final report of the apple crop of the United States, the total is 36,120,000 barrels, against 24,000,000 barrels in 1906 and rather more than 40,000,000 barrels in each of the preceding years.

**The Protected Cruiser**

Newark, stationed at 28th and North River, Minn., is now a N. Y. State training ship of naval militiamen, in place of the New Hampshire, the latter, built in 1817, going into the junk pile.

Lemons valued at \$2,653,627 were exported from Palermo, Italy, to the United States during 1906. In 1904 the shipments amounted to \$2,132,760.

The value of the fruit shipped from Jamaica to the United States during the fiscal year ended March 31, 1906, was \$4,184,714. The shipments to all other countries amounted to \$596,717.

## Uptown Post Office Site.

An agreement upon a site for an uptown Manhattan Post Office at Thirty-first to Thirty-third streets and Eighth avenue, was reached, between Postmaster General Cortelyou and the Pennsylvania Railroad June 28, 1906, at a cost for the property of \$1,660,085. It is estimated that it will take at least three years to complete the building after plans have been perfected.

## Travel in England.

Railroad weight allowance for baggage is 150 pounds for first-class passengers, 120 pounds for second class, and 100 pounds for third class. Commercial travelers and actors are allowed to take with them free of charge 336 pounds in first class, 224 pounds in second class and 168 pounds in third class. Excess rates of from one-fourth to 2 cents per pound are charged on all weights over these allowances.

## A REAL ESTATE STORY.

When people buy real estate—lots, homes, stores and flats or apartments, they look around before putting up their money. No one wants to get the worst of it, and they won't if they can help it. And there is just one way to make sure—look around first; don't take anyone's word but know for yourself.

That is the secret in a nutshell of the unparalleled success of the Abels Gold Realty Company, and if you spend but a moment to read this story—it's like a fairy tale, but every word is history—you will find out how, on a capital of \$1,700, a business exceeding \$3,500,000 was transacted in the short space of two years. And you do not have to be told, you know already that where two men have been wise and made money for their clients and themselves, others can step in line, and by following their advice double or treble their investment. Hundreds of people have done what they told them and what is the result? They have made money. So can you, if you read, think and act at once!

Louis Gold, prior to 1904, was a Manhattan insurance man. He lived across the East River and heard of the great opportunities in Brooklyn real estate. Numbers of his friends had made good in

Brownsville. Brooklyn was a big place and the same reports came from every section. He visited Brooklyn and looked over the ground from one end to the other. He had a friend in Pittsburg, Simon Abels, a clothing merchant and capitalist. He sent for him and told him of some plans he had made. The idea interested Mr. Abels and the Abels Gold Realty Company was started with humble offices at Fifth Avenue and Fifty-first Street.

Some of Mr. Gold's purchases had showed the way things were going to go in South Brooklyn and Bay Ridge, and the new company began there. During 1904 they bought over 1,000 lots, on which they erected three and four-story tenements. They sold so quickly that they were astonished. Early in 1905 they took the money they had made the year before and bought Fifth Avenue lots, from Thirty-sixth street to Fifty-third Street, besides big plots on the side streets. These blocks were vacant, but they saw the way Brooklyn was growing, where homes and stores would have to be built, and in a little while their judgment proved right. They could not build fast enough. The

MR. ABELS

MR. GOLD

business property they put up on Fifth Avenue was snapped up before the workmen got away, and so were the one and two-family houses on the side streets. Some bought on speculation, some for investment, and some to live in. Sometimes their houses were so eagerly sought after that buyers transferred the same property several times a week.

About this time business got so heavy that they had to get larger offices. The one on Fifth Avenue was closed and headquarters were established in Temple Bar, 44 Court Street. Trade grew brisk, and night after night they had to work until after twelve o'clock to keep up to the demand for Bay Ridge homeseekers. During the course of their operations they bought, improved and sold most of the vacant lots between Fortieth and Sixtieth Streets, Fourth and Sixth Avenues, so that to-day they control almost everything for sale.

One of the best things about their way of doing business was this: When they bought a block of lots they put up a few houses and sold a few lots. This made both the lots and houses more valuable, and their clients got the benefit. The same is true of what they are doing to-day. Their clients get the biggest share of the profits.

But while Bay Ridge was still young in its success, they spread out and took in Borough Park, Martense and Flatbush. Over 600 lots were bought in the first two sections, and they are now being developed with a style of two-family houses that are being sold faster than they could possibly finish work on them, which means that those now owning their houses can sell out at a profit, even at this early date, if they want to; but they don't, for there is a big future for all this part of Brooklyn.

This success in Bay Ridge, in Martense and in Borough Park only showed them that their judgment had been good, for all hands were making money. They could not resist the opportunities that they saw in Flatbush. They bought some lots on East Seventh and Eighth Streets, between Beverly Road and Church Avenue, put up more than 30 modern two-family houses, and are selling them as fast as they can finish them. They then went around on Beverly Road and put up some apartment houses. The Ruxton, the Kenwood and the Monroe were the first modern apartment houses to be built in this part of Flatbush, and their judgment has been sustained by other builders who have followed suit, and what is more have rented every floor at city prices.

And now, with all these big enterprises well under way, with hundreds of satisfied clients waiting to share in some more of their enterprises, they are making ready to do some more building. They have just purchased several hundred lots at wholesale prices, and are going to put up 200 one and two-family houses. They have got hold of this property at figures which a small buyer could not obtain, and it does not need much figuring to see that Abels Gold Realty Co. houses will be put on the market—300 two-family houses on West St. and 17th and 18th Avenues, in the swell Kensington section below market values. They do things on a big scale and can afford to offer money-making propositions—half an eye can see that. It's the old story of the honest dollar. If you don't get a hustle on you and put your money where it just can't help doubling, then some one else will! It's Johnny on the spot if you wake up in time!

**COMFORT TO MANKIND**

And since 1870 adding years to a man's life—**Schnoter's Army and Navy Suspensory Bandage** is the only permanent relief for **Varicocele, Hydrocele and Rupture**.

Before taking notice of **Startling Advertisements** of so-called **Varicocele Cures**, see your family physician. Incidentally ask him about the **Celebrated Schnoter's Suspensories**—don't be surprised if he tells you he wears them himself. Any better endorsement wanted?

**A Schnoter's Suspensory** is the only safeguard against **Varicocele, Rupture, etc.**

In use by all prominent **Athletes, Professional Men, Business Men, Policemen, Firemen, Letter Carriers**, and used in the **United States Army and Navy**.

**Wheelmen** should not be without one.

Endorsed by prominent physicians and surgeons since 1870. Also by authorities on Hygiene and Physical Culture.

We are specialists in **Suspensory Making**, and we will cheerfully give you any information regarding **Varicocele and Rupture**.

Ask your druggist for the "**Genuine Schnoter's Suspensory Bandages**" (look for our **Trade Mark, J.C.S.**). If he has not our make in stock, and refuses to get it for you, send direct to us and we will mail you in plain wrapper on receipt of price.

Plain style, **Cotton, 30c., 40c.; Linen, 50c., Silk, 50c., 60c. and 75c.; A. & N. Style, no elastic, 30c.**

**Army and Navy Style**, with lisle elastic belt and straps, **Cotton, 65c.; Linen, 75c.; Best Silk, \$1.00.**

**The Only 60-Day Clock in the World**

is the Prentiss. It runs 60 days on a single winding and keeps perfect time. Think of the convenience of having to wind a clock but once in two months instead of every 8 days and at the same time being able to depend upon it as an accurate timepiece.

The calendar adds greatly to the convenience of the clock and is entirely automatic in its action, requiring no attention but winding once a year.

**Frying-Pan Clocks**

are most artistic novelties and make most excellent gifts. They will be sent prepaid to any express office in the United States on receipt of price. 10 inch, with raised brass figures, \$2.75. 6 inch, with painted figures, \$2.00. 8 day movement \$1.00 extra.

Also Program, Electric, Synchronized and "Approved" Watchman's Clocks.

through the personal interest of its depositors and friends than in any other way. This must necessarily be so, because it is essential that anyone desiring to do business with the Company be favorably known."

**T**HE above is quoted from a small booklet issued several years ago and which proved of great value.

Advertising in a publication reaching the people whose business is desired, is, in a large sense, the personal solicitation of the Company. Among the readers' acquaintances many mutual friends are undoubtedly to be found, and so the erstwhile stranger easily becomes the "favorably known" client. At first probably as a depositor only; later, as the Company's methods and facilities are better known and understood, the

# Kissick's Business Institute

One of the best in Brooklyn for thorough instruction and training of Young Men and Women for business. The Institution occupies the entire building, lighted on all sides, in a select and central neighborhood, between Fulton Street

**45 to 51 ASHLAND PLACE (formerly Raymond St.)**

and DeKalb Avenue, convenient to all the Trolley cars, the Long Island Railroad Depot, and the Kings County Elevated Railroad, and by means of the transfer system, convenient to all parts of Brooklyn and Long Island, and Greater New York.

**PREPARATORY DEPARTMENT**, for those who are backward or whose early education has been neglected. Such will receive *individual instruction* in the studies they require.

**THE ENGLISH COURSE** consists of **Reading, Writing, Spelling, Grammar, Composition, Letter Writing, Literature, Rhetoric, Physiology, History, Geography, etc.** Merchants and business men will agree with us when we say, that besides Penmanship, Arithmetic, Business Forms and Book-keeping—important as these unquestionably are—there are other things, without a knowledge of which, a good business education cannot be considered as complete. Among these we would particularly mention correct Spelling, Punctuation, and a sufficient acquaintance with the rules of Grammar and Composition to enable the student to compose either a good letter, business card or advertisement. For the acquisition of these accomplishments the ambitious student will find in our Institute the most ample facilities. The full English Course, per term, day, \$25; evenings, \$15. One year, day, \$75; evenings, \$45.

**YOUNG MEN** proposing to enter College or Theological Seminary, to engage in any of the learned professions, or anything requiring a liberal education, Higher Mathematics, Mechanical and Architectural Drawing, Lettering, Designing, etc., can have thorough instruction with us, day or evening.

**LADIES' DEPARTMENTS.** Separate apartment for Ladies and Misses, where they receive the same thorough instruction as gentlemen.

**LANGUAGES.** Students should earnestly consider the advantages to be derived from one or more of the Languages that are taught in KISSICK'S BUSINESS INSTITUTE, by quick, easy methods, and applied practically to the modern system of business correspondence at a very small cost, that will pay in better, steadier employment and larger salaries. We teach German, Spanish, French, Latin and Greek.

**PARENTS, EDUCATE YOUR SONS and DAUGHTERS** that they may be self-supporting, at least, if necessary.

**IN NO OTHER** institution is the comfort of the pupil more studied, and his moral training better attended to.

**CIVIL SERVICE.** Gentlemen and ladies prepared for examination.

**CALL** between 9 A. M. and 2 P. M. (evenings 7 to 9), that we may talk over our proposition. Our students have a quiet, clean, healthy, well-lighted place where each learner has the help of a competent, experienced teacher who explains the lesson to each student that he may learn it more thoroughly. An experience of forty-two years on our part, teaching and training young men and women successfully for business, is at your disposal. Telephone, **1191 Main.**

**TERMS** reduced, in this Famous Institute, for thorough, practical teaching, in **STENOGRAPHY, TYPEWRITING** and **BOOK-KEEPING**, to worthy, ambitious young men and women seeking lucrative employment, and coming well recommended, with a fair English Education. The three studies formerly, day session, \$50, now **\$20**; evenings, \$25, now **\$10**.

**STENOGRAPHY, TYPEWRITING AND BOOK-KEEPING**, young men and women would learn thoroughly and practically, if they knew how they could be aided in securing lucrative employment, free of charge.

### TYPEWRITING

There is a special demand for first-class Stenographers and Typewriters who can transcribe their shorthand notes satisfactorily.

### THE UNDERWOOD STANDARD TYPEWRITER

Writing-in-Sight, creates an enormous saving in time. The machine is durable, convenient and rapid—the best in the market.

**THE COMMERCIAL COURSE** in this Institution includes all branches required to prepare pupils thoroughly, up-to-date, for business. Modern methods in Book-keeping by Single and Double Entry, Business Papers, Business Writing, Arithmetic, Spelling, Letter Writing, Business Law, Civil Government, Political Economy, Commercial Geography, History of Commerce, etc. Our students can take the whole or part of this course. None excel us in giving good attention, honest dealing, kind treatment to each student, and none equal us in moderate prices for a thorough business education by competent, experienced teachers.

Per term of 10 weeks, Day, \$20. Evening, \$10.

Per term of 10 months, Day, \$60. Evening, \$30.

**PENMANSHIP** is taught by the Principal and his assistants. In removing stiffness, trembling of the hand, and in making Good, Plain, Rapid, Graceful, Off-hand Business Writers (Muscular Movement), they stand pre-eminent. \$8 per quarter; 25 lessons, \$5.

**EVENING SESSION.** For the benefit of those who may be unable to attend during the day, we hold an evening session from 7 to 9 o'clock. None too backward or too old to learn, as each student will be instructed separately.

**DEPORTMENT.** The discipline of the Institute is mild, but effective. We rule by love, and not by fear. The Principal and his assistants appeal to the student's sense of gentlemanly propriety and behavior; yet prompt and cheerful obedience will be insisted upon, and no insubordinate person will be retained in the Institute.

# Kissick's Business Institute

## **CEMENT**

Many architects in their anxiety to get a safe, durable cement, overlook the important question of *color*. One glance at finished Alsen work shows its *much finer* shade. No yellow or blotchy effect so common in most good brands, a clear bluish tint, perfect for artificial stone. Of course color don't count in work like the Panama Canal. There American Alsens was given preference at equal prices only because of ultra high quality. The bids are on record at Washington.

Quick or slow set.

What have YOU done for the uplift of  
Brooklyn's Poor during the past year?  
Whether much or little, why not turn over a  
new leaf?

YOU cannot go into the tenements, teach  
ignorant mothers and train the little  
children; feed and clothe the destitute;  
nurse and nourish the sick; rescue the  
homeless; find shelter for motherless babes,  
But--

WE can do all these things FOR you.  
Turn over a new leaf NOW by making US  
YOUR PERSONAL REPRESENTATIVE  
among the city's poor.  
There are fifty places for every dollar, but  
we'll see that your dollars go WHERE  
THEY'LL do the most good.
